- Verify that the built-in LED lights are functioning correctly.
- Verify stability by making sure it stays secure and upright.
- Unplug it while not in use and turn it off as necessary.
- **Reinflate as Needed:** If weather-related deflation occurs, repeat steps 5 through 9.

CARE & MAINTENANCE

- **Keep Dry:** Steer clear of letting the inflatable get wet for too long.
- **Store Properly:** After the holiday, keep it securely by using the included storage bag.
- **Prevent beyond-Inflation:** Don't go beyond the suggested inflation rate.
- **Secure in Windy Conditions:** To avoid tipping, always use ropes and stakes.
- **Clean with a Damp Cloth:** Use water and mild soap to remove any dirt or debris.
- **Check for Damage:** Before using, look for any tears or holes.
- **Avoid Sharp Objects:** Steer clear of jagged edges and surfaces.
- When not in use, unplug the motor to avoid needless wear.
- **Protect from Extreme Cold:** If the temperature falls too low, store indoors.
- Before storing, let it fully deflate to ensure correct folding and durability.
- **Avoid Fire Hazards:** Polyester is combustible, therefore stay away from open flames.
- **Avoid Submersion in Water:** Prevent water damage to the motor and lighting.
- **Maintain Proper Airflow:** To ensure effective inflation, keep the fan intake area free.
- Steer clear of excessive sun exposure because it can cause color fading over time.
- **Test Before Every Season:** Before setting up for the holidays, inflate to make sure there are no problems.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Inflatable won't stay upright	Insufficient air pressure or wind interference	Ensure the zipper is closed and add additional securing stakes.
Not inflating properly	Blower malfunction or blockage	Check for obstructions in the blower and confirm it is plugged in properly.
Lights not working	Loose wiring or defective LEDs	Inspect connections and contact customer support if the issue persists.
Deflates quickly	Air leakage or open zipper	Ensure the zipper is fully closed and check for punctures.
Blower makes loud noise	Debris inside the blower	Turn off and remove any obstructions from the fan.
Won't inflate at all	Power issue	Check if the power outlet is functional and inspect the adapter.
Unstable in windy conditions	Not properly secured	Use extra stakes or sandbags to keep it stable.
Fabric discoloration	Exposure to harsh weather	Store indoors when not in use to prevent fading.
Slow inflation	Weak blower output	Allow the fan to run continuously for a few minutes before adjusting.
Difficult to deflate	Air trapped inside	Open the zipper completely and gently press to release air.

PROS & CONS

Pros:

1. **Adorable Design** – Features a charming dachshund with festive detailing.
2. **Bright LED Lights** – Illuminates the decoration for enhanced nighttime visibility.
3. **Quick Inflation** – Equipped with a high-performance fan for fast setup.
4. **Weather-Resistant Material** – Made of durable, waterproof polyester.
5. **Easy Storage** – Deflates quickly and comes with a storage bag.

Cons:

1. **Limited Height** – At 5 FT, it may not be as prominent in larger yards.
2. **Needs a Power Source** – Requires a nearby outlet for continuous inflation.
3. **May Require Extra Securing** – Strong winds may necessitate additional weights.
4. **LED Brightness May Vary** – Some users may find the lights less vibrant than expected.
5. **Single Holiday Use** – Primarily designed for Christmas, limiting its versatility.
