SETUP GUIDE

- Open the package and remove the stakes, ropes, blower, power wire, and inflatable ghost.
- **Select the Setup Location:** Look for a level area where the inflatable can stand upright, either indoors or in your yard.
- **Blower Connection:** Attach the blower to the specified air intake.
- **Plug in the Power Cord:** Attach the blower to an electrical outlet using the 10-foot power cord.
- **Make Sure the Zipper Is Closed:** To avoid air leaks, make sure the bottom zipper is closed completely before inflating.
- **Activate the Blower:** Turn on the blower and let the inflatable fill with air.

- **Await Full Inflation:** It will take a few seconds for the ghost to fully expand.
- **Verify Correct Standing Position:** Make sure the inflatable is standing correctly by adjusting it.
- Use the stakes and ropes that come with it to firmly anchor it in the ground if you plan to use it outside.
- **Test Stability:** Gently press the inflatable to see if it stays securely fastened and stable.
- **LED Light Adjustment:** Verify that the integrated LED lights are operational and oriented appropriately.
- **Avoid Obstructions:** To ensure constant airflow, make sure nothing is obstructing the blower.
- **Look for Air Leaks :** Look for any openings or loose spots that could lead to deflation.
- Now that your GOOSH Inflatable Cute Ghost is prepared for exhibition, enjoy the decoration!
- **Turn Off & Store After Use :** Deflate, turn off, and store in the included bag when not in use.

CARE & MAINTENANCE

- **Avoid Sharp things:** Keep the inflatable away from surfaces that could rip it or from sharp things.
- **Store in a Dry Place:** To avoid mold or mildew, store it in a dry location after use.
- **Clean with Mild Soap:** If the surface becomes unclean, use a moist cloth and mild soap to clean it.
- **Do Not Machine Wash:** The fabric and internal wiring of the inflatable may be harmed by machine washing.
- **Keep Electrical Parts Dry:** To avoid electrical risks, make sure the power cable and blower are dry.
- **Secure Properly in Windy Conditions :** To keep it from blowing away, always use stakes and ropes when setting outside.

- **Check the Zipper Often:** To maintain adequate air retention, make sure the bottom zipper is in good shape.
- **Examine for Leaks:** Look for tiny holes or air leaks; repair minor damage with tape or fabric glue.
- Refrain from overinflating, as this may cause stress on the seams.
- **Turn Off When Not in Use:** To conserve energy and extend the inflatable's life, unplug the blower when not in use.
- **Don't Block the Air Inlet:** To guarantee constant inflation, keep the blower's air inlet open.
- Keep an eye on the weather outside. To avoid damage, don't leave it outside during severe rain or storms.
- **Stay Away from Open Flames:** Avoid positioning near heaters, fire pits, or candles.
- **Detach Blower Before Storing:** Before folding and storing, always take out the blower and power cord.
- **Fold Gently for Storage:** To preserve the integrity of the fabric, fold it gently without crumpling when storing.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Inflatable is not inflating	Power source not connected	Check and ensure the plug is securely connected
Inflatable deflates quickly	Zipper is open or air leakage	Fully close the bottom zipper and check for any leaks
LED lights not working	Loose or damaged wiring	Inspect and reconnect any loose wires
Blower is not working	Faulty blower or battery issue	Test with a different power outlet or contact support
Inflatable tips over	Not properly secured	Use included stakes and ropes to secure it firmly
Blower making noise	Debris inside blower	Clean the blower and remove any obstructions
Inflation is too slow	Weak airflow or blockage	Ensure the air intake is unobstructed
Inflatable moves too much in wind	High wind conditions	Place it in a more sheltered location
Power cord too short	Limited outlet reach	Use an extension cord for flexibility
Inflatable gets wet	Heavy rain exposure	Allow to fully dry before storing to prevent mold
