GOOTHY S14 Outdoor String Lights

INTRODUCTION

The GOOTHY 48-ft S14 LED Outdoor String Lights, which retail for **\$20.99**, combine usefulness, style, and durability into one strand. This commercial-grade lighting solution has 16 warm white 2700K LED bulbs (plus two spares) on a sturdy black cable. It is waterproof, energy-efficient, and dimmable (with a compatible dimmer). Despite using only 0.6 W, a small portion of what incandescent lights require, each bulb can provide a steady atmosphere for up to 15,000 hours. For wide coverage, the design has end-to-end connectors to connect up to 45 strands (maximum 432 W), built-in hanging hooks, and bulbs spaced 3 feet apart. This strand is perfect for patios, weddings, cafes, and year-round outdoor décor because it is shatterproof and UL-certified.

SPECIFICATIONS

Brand	GOOTHY
Model	S14

Length	48ft (576in)
Bulbs	16 LEDs + 2 spares
Bulb Type	S14 plastic LED
Bulb Base	E12 Candelabra
Wattage/Bulb	0.6W
Total Power	~9.6W
Color Temperature	2700K (Warm White)
Brightness	~23lumens per bulb
Lifespan	Up to 15,000 hours
Voltage	120V AC
Wire Color	Black
Spacing (bulbs)	3ft
Lead-in/Tail Length	1ft tail / 1ft lead
Connectable	Yes—up to 45 strands (max 432W)
Weatherproof	Yes
Shatterproof	Yes
Bulbs Replaceable	Yes
Housing	Waterproof UL-certified wiring
Weight	2.16lb

WHAT'S IN THE BOX

- 1 × 48ft S14 LED string light strand

- 18 bulbs (16 installed + 2 spare)
- 1 × Spare fuse (in plug)
- 1 × manual

FEATURES

- **Commercial-grade Construction:** Built to last, featuring waterproof design and UL-certified wiring for safe outdoor use.

- **Cable Length:** 48ft long with sleek black wire for a clean and professional appearance.
- **Included Bulbs:** Comes with 16 S14 LED bulbs that emit a cozy 2700K warm white light.
- **Extra Bulbs:** Two spare bulbs are included in the package for quick replacements.
- **Energy Consumption:** Each bulb uses just 0.6W, keeping energy costs low.
- **Bulb Lifespan:** LEDs last up to 15,000 hours, reducing the need for frequent

replacements.

- **Durability:** Bulbs are made from shatterproof plastic to resist drops and bumps.
- **Dimming Function:** Works with compatible external dimmers for adjustable brightness.
- **Expandable Design:** You can connect up to 45 strands end-to-end to cover larger areas.

- **Mounting Ease:** Each socket includes a built-in hook for simple hanging.
- **Easy Replacements:** Bulbs and internal fuse can be replaced when needed.
- **Light Spacing:** 3ft between bulbs provides even light distribution.
- **Weight:** Lightweight at 2.16lb, making installation hassle-free.
- **Versatility:** Great for patios, events, weddings, or cafes—suitable all year round.
- **Safety Certification:** UL listed for reliable, safe outdoor performance.

SETUP GUIDE

- **Power Source:** Plug into a functional 120V outlet.
- **Optional Dimming:** Install a compatible dimmer switch if needed.

- **Hanging Method:** Use built-in hooks, zip ties, or clips to hang securely.
- **Cable Slack:** Leave some slack at both ends to reduce cable strain.
- **Strand Linking:** Connect additional strands as needed, up to 45 total.
- **Fuse Check:** Ensure the plug's fuse is properly inserted.
- **Lighting Test:** Power on to verify all bulbs are working.
- **Bulb Replacement:** Use the included spares for any non-working bulbs.
- **Brightness Adjustment:** Set your preferred light level using a dimmer.
- **Cable Management:** Tuck away any extra cord to prevent tripping.
- **Stability Check:** Re-tighten hooks or ties if they loosen over time.
- **Weather Use:** Safe for use in both dry and wet conditions.
- **Power Off Before Cleaning:** Always unplug before wiping down.
- **Storage:** Store in original packaging in a dry indoor space when not in use.

CARE & MAINTENANCE

- **Routine Cleaning:** Wipe bulbs and wires with a soft, dry cloth.

- **Gentle Wash:** Use mild soap only when needed and dry thoroughly.
- **Bulb Check:** Tighten bulbs periodically to ensure secure contact.
- **Fuse Replacement:** Change fuses when necessary.
- **Storage Tips:** Keep above freezing temperatures to protect wiring.
- **Annual Inspection:** Check for frayed wires or damage every year.
- **Avoid Tangles:** Coil cords neatly to prevent tangling during storage.
- **Proper Bulb Replacements:** Only use matching S14 LED bulbs for replacements.
- **Safety First:** Unplug before trimming nearby trees or making adjustments.
- **Clean Connectors:** Keep plug ends dry and dirt-free.
- **Linking Limits:** Do not exceed the manufacturer's strand limit.
- **Product Lifespan:** Replace the entire strand after about 5 years of use.
- **Safety Around Others:** Keep cords and bulbs away from children and pets.
- **Heat Precautions:** Don't install bulbs close to flammable surfaces.

Upgrade Light Bulbs Material

Why choose us?

Ours:

- ✓ Energy Saving :90% Bill Saving
- ✓ Wattage: 0.6W
- ✓ Lifespan: 30000H
- ✓ Material :Shatterproof Plastic

Other:

- ✗ Energy consumption :10% Low Efficacy
- ✗ Wattage: 11W
- ✗ Lifespan: 10000H
- ✗ Material :Fragile Glass

TROUBLESHOOTING

Issue	Cause	Solution
Some bulbs won't light	Loose/burnt bulb	Turn off, tighten or replace bulb
Entire strand out	Blown fuse or circuit trip	Replace fuse, reset breaker
Flickering lights	Voltage drop or bulb issue	Tighten bulbs, reduce strand count
Dimmer doesn't dim fully	Incompatible dimmer	Use dimmer rated for LED soft white load
Water in sockets	Rain intrusion	Unplug and let dry completely before reuse
Bulb glass cracked	Impact or stress	Replace affected bulb
Fuse missing in plug	Manufacturing oversight	Install spare fuse from plug
Connection fails when daisy-chained	Exceeding wattage limit	Reduce number of strands
Bulbs staying lit after power off	Capacitive effect in dimmer	Install resistive load or use different dimmer
Bulb loosens over time	Thermal cycling	Retighten periodically

PROS & CONS

Pros

- Long-lasting durability with waterproof & shatterproof build
- Low-energy LED bulbs with warm ambiance
- Fully dimmable for mood customization
- Linkable strands enable scalable setups
- Built-in hooks simplify mounting

Cons

- Dimmer not included—sold separately
- Bulbs may be pricey to replace
- Black wire may be visible against lighter backgrounds
- Fuse replacement requires stocking spares
- Not UL-rated for overhead contact with metal structures

WARRANTY

This product includes **GOOTHY's satisfaction guarantee**, typically covering defects and unused returns for **30 days**, plus a **limited warranty** on manufacturing flaws. For claims, keep the purchase receipt and contact the seller/manufacturer.

FREQUENTLY ASKED QUESTIONS

What type of bulbs does the GOOTHY S14 Outdoor String Lights set include?

The GOOTHY S14 comes with 16 clear S14 plastic LED bulbs (plus 1 spare), which are energy-efficient, shatterproof, and emit warm white light at 2700K.

What is the total length of the GOOTHY S14 string lights, and how are the bulbs spaced?

The total length is 48 feet, with 3 feet of spacing between each bulb, a 1-foot lead from the plug to the first bulb, and a 2-foot tail with a female connector.

How many strands of the GOOTHY S14 lights can be connected together?

You can connect up to 45 strands of the GOOTHY S14 lights end-to-end, totaling a maximum of 432 watts.

What base type do the bulbs in the GOOTHY S14 Outdoor String Lights use?

The bulbs use a C7/E12 candelabra base, which is standard for decorative string lights.

How are the GOOTHY S14 lights installed?

Each socket on the GOOTHY S14 has a hanging hook, making it easy to mount with hooks, zip ties, or guide wires for secure placement.

Why arent the GOOTHY S14 lights turning on after installation?

Check if the power outlet is working and ensure the fuse in the plug hasnt blown (a spare fuse is included). Also, verify all bulbs are tightly screwed in.

Why do the GOOTHY S14 Outdoor String Lights flicker?

Flickering may result from a loose bulb or using an incompatible dimmer switch. Ensure all bulbs are securely fastened and use a dimmer designed for LED lights.
