Product Information

How to do polar alignment with phones?

Please directly check the video guide here:

<https://drive.google.com/file/d/1Ycn7luChTIWYfyvZxAaVLttTkx5GaibM/view?usp=sharing>

1. Set up well your Rotator and camera.
2. Mount the Phone Mount to the Rotator, your phone to the Phone Mount.
3. Open a planetarium app and go to its AR feature, look for North/South Pole (depends on the hemisphere you're in) with the app.

4. Adjust your setup's gesture until your phone is aligned with polar on the app.

There you go, ready to shoot!
