FAQs

- **Q: How often should I check the salt levels?**

- **A:** It is recommended to check the salt levels weekly and adjust as needed to maintain the proper concentration.

- **Q: Can I use any type of salt with this system?**

- **A:** It is recommended to use pure, high-quality salt without any additives for best results and system longevity.

SALT SYSTEM

- The chlorinators from salt electrolysis generate salt-based chlorine that disinfects the swimming pool.
- Salt electrolysis has several advantages: it automatically generates and manages a pool's chlorine levels and it avoids having to store and use chemical products.
