Technical Support

If you have any questions, please let us know as soon as possible! All of our keyboards come with a 12-month warranty, so you can buy with confidence.

Compatibility

Compatible with iPadOS 13 (with newer versions).
We recommend that you upgrade your iPad to 13.4.1 for best performance.

To check your iPad system version.

1. Settings  > General > About > Software Version.
2. Upgrade to iPadOS 13.4.1 or later to properly use the touchpad feature.

Upgrade your iPad to the latest version:

1. Open your device's Settings  > General > Software Update

2. Click "Download and Install".
*If you see Resume Download, click it.

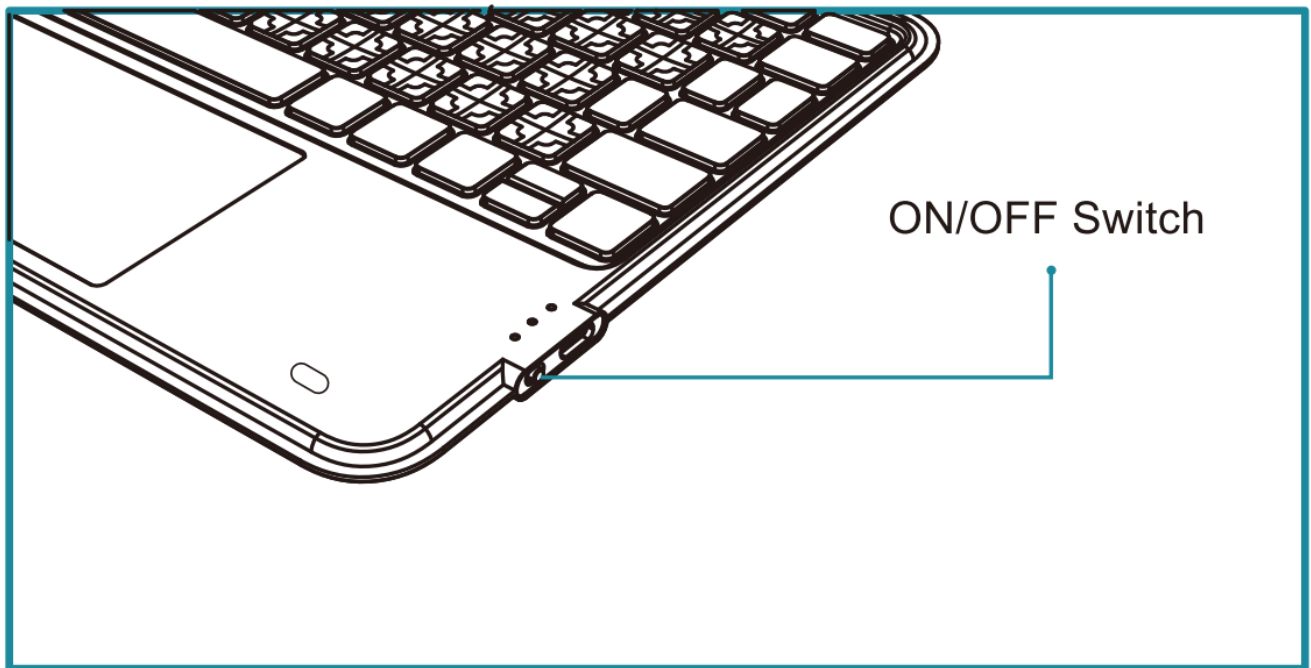

Settings

Pairing with the tablet.

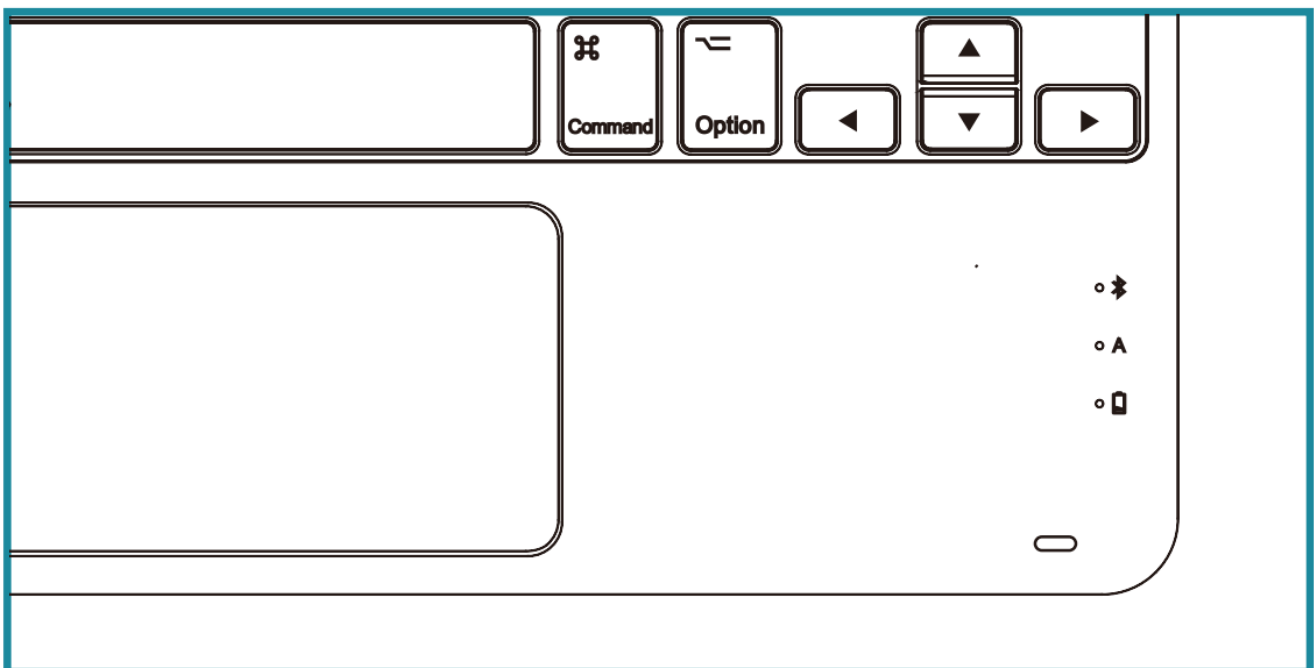

1. Switch the ON/OFF to the ON position

2. Connect the device BT1 : long press  blue light flashes quickly

Connect device BT2: long press  green light flashes quickly

3. Switch "Bluetooth on" in "Settings" 

4. Click "Settings" – "Bluetooth" -"Available devices" Bluetooth Keyboard"
5. Click Pairing in the pop-up window. (When the Bluetooth indicator stops flashing, the device is connected)

When pairing with a new device, repeat steps 1-5 after the connect indicator appears, and pairing is complete.

Note: Keyboard supports simultaneous connection of two devices, short press FN + C / V switch Bluetooth BT1 / BT2

If your system is 13.3.1, please follow the steps below to enable the touchpad function:

1. Go to Settings  > Accessibility > Touch
2. Make sure the Assistive Touch option is turned on

iPad adapter

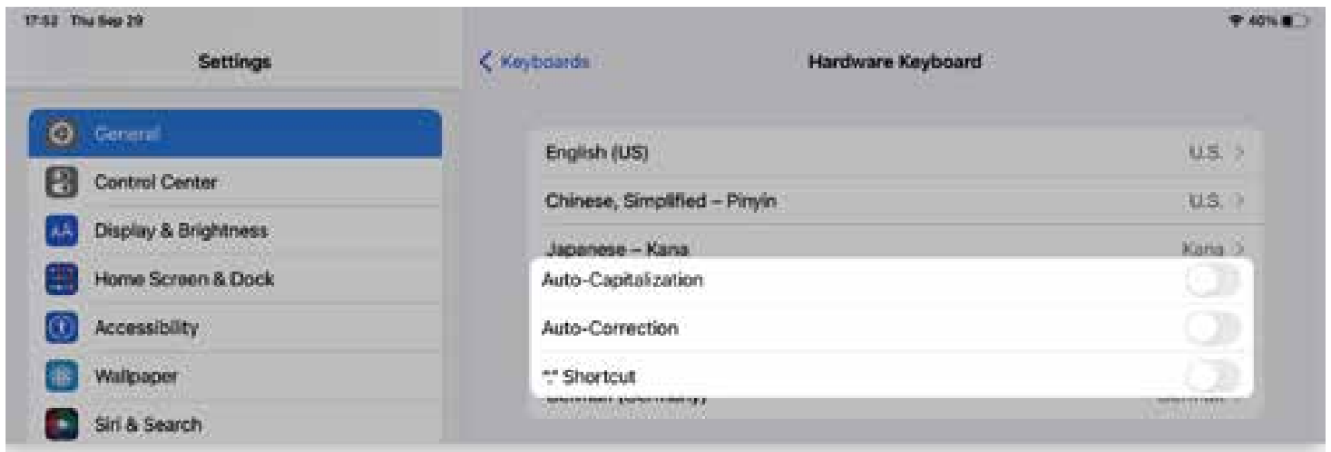

Troubleshooting

If the keyboard does not work properly, please check the following things:

1. The Bluetooth function of the tablet (or other Bluetooth devices) is turned on;
2. Bluetooth keyboard is within 33 feet;
3. Bluetooth keyboard is charged;
4. Make sure the keyboard is powered on (battery indicator is on);
5. Make sure the keyboard has been paired via Bluetooth.

If you have unwanted autocorrect or punctuation, please follow these steps:

1. Open Settings>General>Keyboard>Hardware Keyboard;
2. Turn off Auto-Capitalization Auto-Correction and “.” Shortcut (see the picture below).

If Bluetooth pairing fails, please try the following steps:

1. Press and hold the  +  key, the red, green, and blue indicator lights are on at the same time, then release, the keyboard has been restored to factory settings.
2. Delete all Bluetooth devices on the tablet;
3. Turn off the Bluetooth function on the tablet;
4. Restart the tablet;
5. Turn on the Bluetooth on the tablet;
6. Switch the keyboard switch;
7. Repeat the “Setup” steps in the manual to pair the keyboard.

GFSK

Operating voltage

3,0-4,2V

Operating current

12mA (without backlight) / 100mA (backlight)

Sleeping current:

<40μA

Charging current

<300mA

Continuous working time without backlight

50 hours

Backlight continuous working time 5 hours

Maintenance please keep at room temperature, normal voltage charging

Backlight hibernation time 30 seconds

Keyboard hibernation time 10 minutes

Charging time <3 hours

Charging voltage 5V

Key life 3 million times

Operating temperature 10+55 °C

Compliance

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, as shown in Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates use and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur during a particular installation. If the equipment does cause harmful interference to radio or television reception, this can be determined by turning the equipment off. Try to correct the interference by one or more of the following measures.

- Moving or shifting the receiving antenna. Increasing the distance between the equipment and the receiver.
- Connecting the equipment to a circuit outlet on a different circuit than the one to which the receiver is connected.

Seek assistance from your dealer or an experienced radio/TV technician .

Changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment. This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions.

1. The equipment will not cause harmful interference.
2. The equipment must accept any interference received, including interference that may cause other operations.
