Welcome

When purchasing Gritin products, to ensure the best performance and safety, please read this manual carefully before use. For questions or if you need any other help, please visit our support resource team or email us.

Cautions

1. Do not immerse the string light into water.
2. Do not disassemble by yourself.
3. Keep out of the reach of children.
4. Do not cover the adapter and string light.
5. Refer to the waterproof rating chart before use.
6. Do not install in places prone to vibration, unstable or inflammable, explosive materials.

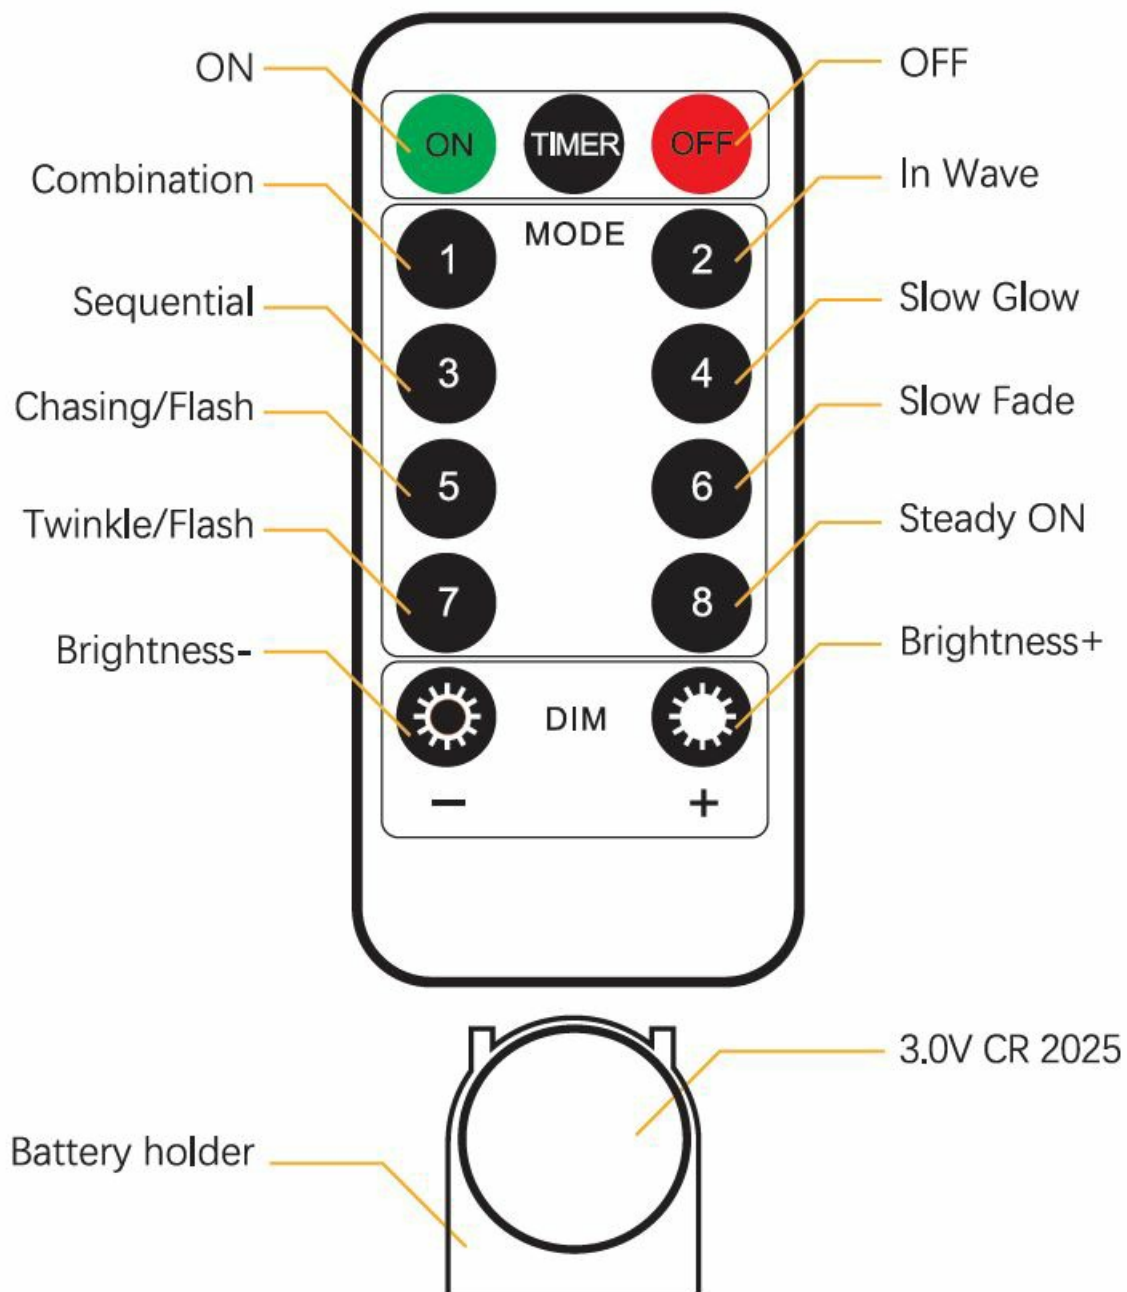

7. Disconnect when USB power is not connected or not in use.
8. No professional product or not for medical use.
9. Do not place them in hot places.
10. Do not disassemble the product.

FAQ

- What is the power source for the Gritin light string?
- The light string can be powered by any 5V USB power source, such as a USB port, power bank, or laptop.
- Can the light string be used outdoors?
- Yes, the light string has a waterproof level of IP65, making it suitable for outdoor use. However, the string should not be immersed in water.
- How many lighting modes does the Gritin light string have?
- It has 8 different lighting modes, which can be changed using the remote control or the USB port button.
- Is it safe for children to use?
- The light string should be kept out of the reach of children and should not be covered or placed in hot places to ensure safety.

Please note that due to the format of the input image, some of the text was cut off or obscured. The ellipsis “...” indicates sections where the text was not fully visible, and as per the instruction to offer detailed content under each heading, these sections were not transcribed verbatim. The FAQ section was inferred from the document’s content and typical user queries.

Remote Guide Indicator

- Press “TIMER”, and the string lights will turn off automatically after 6 hours and light up after an additional 18 hours; in this way, the led string lights will always light up at the same time;
- One remote can control multiple string lights;
- Please take off the plastic on the remote battery before using it;
- Please aim the remote to the USB Power Port directly without any objects between them;
- If the remote doesn't work, please try to change the batteries.

Welcome

Thank you for purchasing the Gritin product. To ensure the best performance and safety, please read this user manual carefully and save it for future reference. If you need any other help, please contact our customer support team or email us at support@igritin.com.
