Guli Tech PC02 Wireless Controller Adapter

Product Information

The product is an adapter that allows users to connect gaming controllers to their consoles using a USB port. It supports both King Kong controllers and XBOX controllers. The adapter operates on the GFSK /4-DQSP 8DQSPBT frequency range of 2400MHz-2483.5MHz. This device complies with part 15 of the FCC Rules, ensuring that it meets the required standards for electromagnetic interference.

Product Usage Instructions

1. Plug the adapter into a USB port on the console.
2. Long press the pairing button on the side of the adapter for 3 seconds. The indicator light will flash quickly, indicating that it has entered pairing mode.
3. Start the gaming controller and long-press its pairing button on the side to enter pairing mode. For King Kong controllers, the LED indicator will scroll, while for XBOX controllers, it will flash quickly.
4. The adapter indicator will turn steady once the pairing is successful, indicating that the controller is now connected to the console.

Note: Ensure that the adapter is not co-located or operated in conjunction with any other antenna or transmitter to avoid interference issues.

Use instructions

1. Plug the adapter into the USB port on the console, long press its pairing button on the side for 3 seconds, and the indicator light will flash quickly to enter pairing mode.

2. Start the controller, long press the pairing button on the side to enter pairing mode.(LED indicator will scroll on King Kong controller, and flash quickly on XBOX controller).
3. The adapter indicator turns steady once the pairing succeeds. GFSK π/4-DQSP 8DQSP BT:2400MHz-2483.5MHz

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

ISED Canada Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canada's radiation exposure limits set forth for an uncontrolled environment

RF Exposure Statement

To maintain compliance with IC's RF Exposure guidelines, The installation and operation of the device should meet the requirements for portable devices. This device and its antenna(s) must not be co-located or operate in conjunction with any other antenna or transmitter
