Safety instructions

Electrical devices must only be installed and assembled by a qualified electrician. The accident prevention recommendations applicable in the country must be followed. Failure to follow the installation instructions may result in damage to the device, fire or other dangers.

- Please follow the recommendations and standards applicable for SELV electrical circuits during installation and when laying cables. Before any work on the device or the load, switch off the power to the installation.
- Do not forget all the circuit breakers that deliver voltages which are potentially dangerous to the device or the load.
- Risk of electric shock.
- The charging station must be powered off when replacing a spare part.
- Please read the maintenance manual before servicing a charging station.
- The device must only be installed by an electrician, in accordance with the installation standards applicable in the country.
- Holding the edges of the card only, to avoid touching the sensitive components.
- Wearing an antistatic bracelet when handling the card to prevent any damage. If you do not have an antistatic bracelet, touch a metal object connected to the earth before handling the card to remove any static electricity from your body. Regularly touch the metallic object when handling the card.
- Until the electronic products are installed, store them in their packaging to protect them from electrostatic discharges, or on an antistatic support.

Recommendations

Do not access or tamper with any internal sections of the device beyond those mentioned in these instructions. Doing so will void the warranty and any other assistance. Indeed, this kind of tampering may cause damage to electrical components and/or parts. These products have been designed so that there is no need to access these areas as part of set-up and maintenance.

How to dispose of this product (electrical and electronic equipment waste).

(Applicable in European Union countries and other European countries with selective waste collection systems). This symbol on the product or its documentation indicates that it must not be disposed of with other household waste at the end of its life cycle.

As disposing of waste inappropriately may harm the environment or human health, please separate it from other types of waste and recycle it responsibly.

In this way you will contribute to the sustainable re-use of material resources. Individuals should contact the retailer who sold them the product or contact their local council to find out where and how they can dispose of this product for recycling in an environmentally friendly manner. Companies should contact their suppliers and read the terms of their sales contract. This product must not be disposed of with the other commercial waste.

Can be used anywhere in Europe  and Switzerland

This document is not contractually binding and is subject to change without notice.
