Operating instruction

Package Contents

- USB-A Hub
- USB cable
- Power supply unit
- These operating instructions

Safety Notes

- Do not operate the product outside the power limits given in the specifications.
- Do not modify the product in any way. Doing so voids the warranty.
- Keep this product, like all electrical products, out of the reach of children!
- Use the product for its intended purpose only.
- Protect the product from dirt, moisture, and overheating, and only use it in a dry environment.
- The product is intended for indoor use only.
- Do not use the product in the immediate vicinity of heaters or other heat sources or in direct sunlight.
- Do not use the product in moist environments and avoid splashes.
- Do not use the product in areas where the use of electronic devices is not permitted.
- Do not drop the product and do not expose it to any major shocks.
- Dispose of packaging material immediately according to locally applicable regulations.
- Use the item only in moderate climatic conditions.
- Lay all cables so that they do not pose a tripping hazard.
- Do not bend or crush the cable.

Risk of electric shock

- Do not open the device or continue to operate it if it becomes damaged.
- Do not use the product if the AC adapter, adapter cable or power cable is damaged.
- Do not attempt to service or repair the product yourself. Leave any and all service work to qualified experts.
- Ensure that the total power consumption of all connected terminal devices does not exceed 1200 mA.
- Bus-powered operation (without power supply unit) USB 2.0 \leq max. 500 mA / USB 3.0 \leq max. 900 mA / USB-C \leq 3000 mA
- Consult the operating instructions or the technical specifications of the connected devices and your computer.
- It is essential that you observe these specifications and the safety instructions regarding the power supply of your devices.

Startup and Operation

Warning

- Only operate the product from a socket that has been approved for the device. The socket must be installed close to the product and must be easily accessible.
- Disconnect the product from the power supply using the On/Off switch – if this is not available, unplug the power cord from the socket.
- If using a multi-socket power strip, make sure that the total power consumption of all connected devices does not exceed the power strip's maximum throughput rating.
- If you will not be using the product for a prolonged period, disconnect it from mains power.
- Switch on your computer and boot the system.
- First, connect the enclosed power supply unit to a socket and then to the hub.
- Connect the product to a free USB port on your computer.
- You do not have to install drivers; the computer will automatically recognize the product.
- If necessary, follow the instructions for your operating system.
- In order to use your devices, plug them into the product one after the other.

Warranty Disclaimer

Hama GmbH & Co KG assumes no liability and provides no warranty for damage resulting from improper installation/mounting, improper use of the product, or from failure to observe the operating instructions and/or safety notes.

Technical Data

Compatibility	USB-A port
System requirements	Windows 11 / 10 / 8 / 7 Mac OS 10.8 ≥
USB specification	USB 2.0

Specifications in accordance with Regulation (EU) 2019/1782

Manufacturer's name or trademark, commercial registration number and address	Hama, HRA12159, Dresdner Str. 9, 86653 Monheim
Model identifier	DYS806-050120W-3
Input voltage	100-240 V
Input AC frequency	50/60 Hz
Output voltage / Output current / Output power	5.0 V DC / 1.2 A / 6.0 W
Average active efficiency	75.0 %
Efficiency at low load (10 %)	68.9 %
No-load power consumption	0.10 W

Note

- If there is interference or the product no longer responds, unplug the product, wait a few seconds and then plug it in again.
