Operating instruction

Thank you for choosing a Hama product.

Take your time and read the following instructions and information completely. Please keep these instructions in a safe place for future reference.

Explanation of Warning Symbols and Notes

A Risk of electric shock

This symbol indicates product parts energized with a dangerous voltage of sufficient magnitude to constitute a risk of electric shock.

<u>∕!\</u> Warning

This symbol is used to indicate safety instructions or to draw your attention to specific hazards and risks.

This symbol is used to indicate additional information or important notes.

Package Contents

- 1 Night Light
- · These operating instructions

Safety Notes

- The product is intended for private, noncommercial use only.
- Protect the product from dirt, moisture and overheating and use it in dry rooms only.
- Do not drop the product and do not expose it to any major shocks.
- Do not operate the product outside the power limits given in the specifications.
- Do not modify the device in any way. Doing so voids the warranty.
- Do not continue to operate the device if it becomes visibly damaged.
- Use the product for its intended purpose only.
- Keep this product, as all electrical products, out of the reach of children!
- Do not use the product in the immediate vicinity of heaters or other heat sources or in direct sunlight.
- Lay all cables so that they do not pose a tripping hazard.
- Do not bend or crush the cable.
- Always pull directly on the plug when disconnecting the cable, never on the cable itself.
- Dispose of packaging material immediately according to locally applicable regulations.

- The product is intended for indoor use only.
- Use the item only in moderate climatic conditions.
- Do not use the product in areas where the use of electronic devices is not permitted.
- Do not use the product in moist environments and avoid splashes.
- Never connect multiple units of this product in a series.
- The product may only be operated with the type of power supply network described on the nameplate.
- · This product is not suitable for lighting rooms in domestic households.

Risk of electric shock

- Do not open the device or continue to operate it if it becomes damaged.
- Do not use the product if the AC adapter, adapter cable, or power cable is damaged.
- Do not attempt to service or repair the product yourself. Leave any and all service work to qualified experts.

(i) Note

• The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced!

Operation

- The night light has a brightness and motion sensor. When motion in the dark is detected, the night light automatically switches on. Conversely, the night light switches off when it gets light.
- After activation, the night light is lit for about 30 seconds.

Warning – Connecting terminal devices

- Before connecting a terminal device, check whether the power output of the charger can supply sufficient power for the device.
- Please refer to the instructions in the operating manual of your terminal device.

 Only connect the product to a socket that has been approved for the device. The socket must be installed close to the product and easily accessible.

Warning

- When using a multi-socket power strip, make sure that the sum power draw of all the connected devices does not exceed its maximum throughput rating.
- If you will not be using the product for a long period of time, disconnect it from mains power.

Unless the operating instructions for the devices you want to charge explicitly inform you otherwise, proceed as follows:

- Connect your terminal device to a USB charging socket using a suitable USB cable.
- Connect the charger to a properly installed and easily accessible power socket.
- Charging progress is displayed on your terminal device.
- Disconnect the terminal device from the charger if you want to interrupt charging or if the terminal device is fully charged.
- Then disconnect the charger from the mains.
- When charging batteries built into a device, pay attention to the maximum charging time for the batteries.

Care and Maintenance

Only use dry, soft cloths for cleaning.

Disconnect the device from the power supply before cleaning or if it will not be used for a long period of time.

Technical specifications

Specifications in accordance with Regulation (EU) 2019/1782

Manufacturer's name or trademark, commercial registration number, and address	Hama, HRA
Model identifier	00223498
Input voltage	230 V
input AC frequency	50 Hz
Output voltage / Output current / Output power	5.0 V DC/ 2
Efficiency at low load (10 %)	80.4 %
Efficiency at low load (10 %)	75.7 %
No-load power consumption	0.09 W
