**hama LED Night Light “Basic”**

## Operating instruction

### Safety Notes

- The product is intended for private, non-commercial use only.
- Protect the product from dirt, moisture and overheating and use it in dry rooms only.
- Only connect the product to a socket that has been approved for the device. The socket must be installed close to the product and easily accessible.
- Do not drop the product and do not expose it to any major shocks.
- Do not operate the product outside the power limits given in the specifications.
- Do not continue to operate the device if it becomes visibly damaged.
- As with all electrical devices, this device should be kept out of the reach of children.
- Do not modify the device in any way. Doing so voids the warranty.

**Note:** The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced!

### Operation

The night light is equipped with a twilight sensor that automatically switches it on as soon as the surrounding area is dark and switches it off when it gets light again.

### Warranty Disclaimer

Hama GmbH & Co. KG assumes no liability and provides no warranty for damage resulting from improper installation/ mounting, improper use of the product or from failure to observe the operating instructions and/or safety notes.

### Service and Support

Please contact Hama Product Consulting if you have any questions about this product.

**Hotline: +49 9091 502-0 (German/English)**

Further support information can be found here: [www.hama.com](http://www.hama.com)

### Recycling Information

## Note on environmental protection:

After the implementation of the European Directive 2012/19/EU and 2006/66/EU in the national legal system, the following applies: Electric and electronic devices, as well as batteries, must not be disposed of with household waste. Consumers are obliged by law to return electrical and electronic devices as well as batteries at the end of their service lives to the public collecting points set up for this purpose or point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations.

By recycling, reusing the materials or other forms of utilising old devices/Batteries, you are making an important contribution to protecting our environment.
