hama WK-500 Compact Multi-Device Keyboard

Product Information

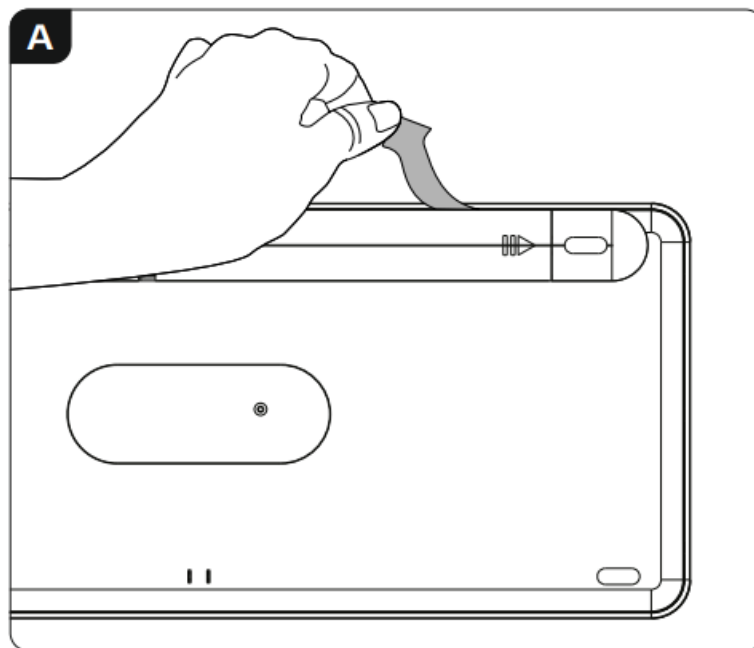

Specifications:

- **Product Name:** WK-500 Keyboard
- **Connection Modes:** 2.4 GHz, Bluetooth
- **Compatibility:** Android, Windows, MacOS, iOS, iPadOS
- **Features:** AI Assistant

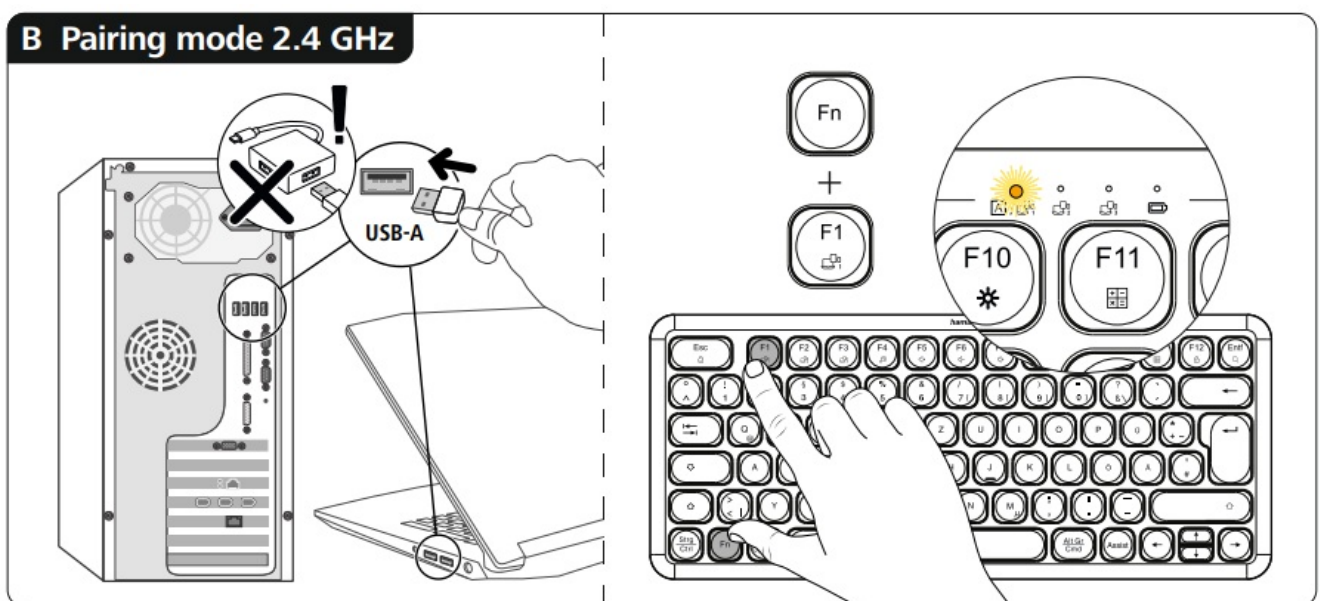

Product Usage Instructions

Pairing the Keyboard:

To pair the keyboard in 2.4 GHz mode (USB-A), follow these steps:

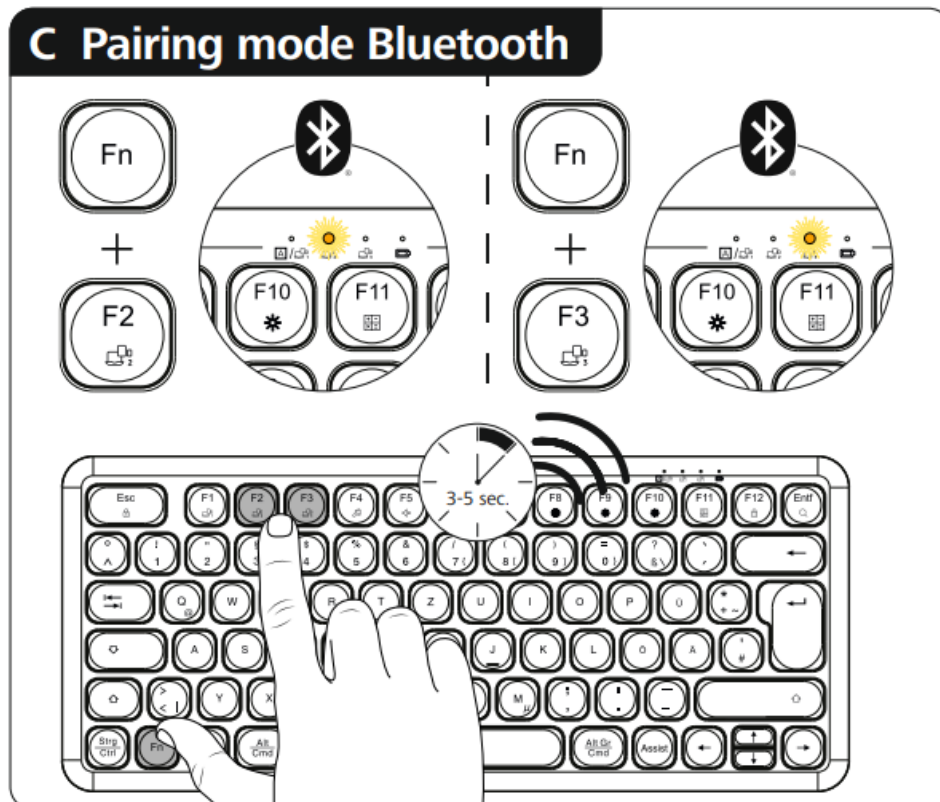

1. Switch the keyboard to pairing mode by pressing the designated button (B) for 3-5 seconds.

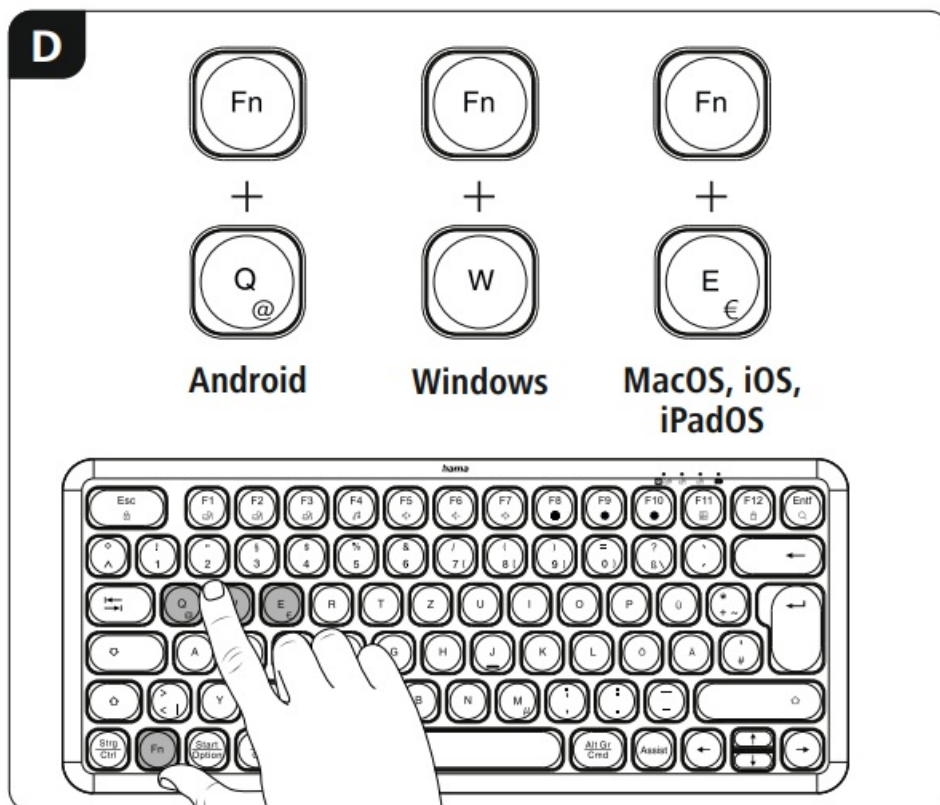

2. Connect the USB-A receiver to your device.
3. The keyboard should now be paired and ready to use.

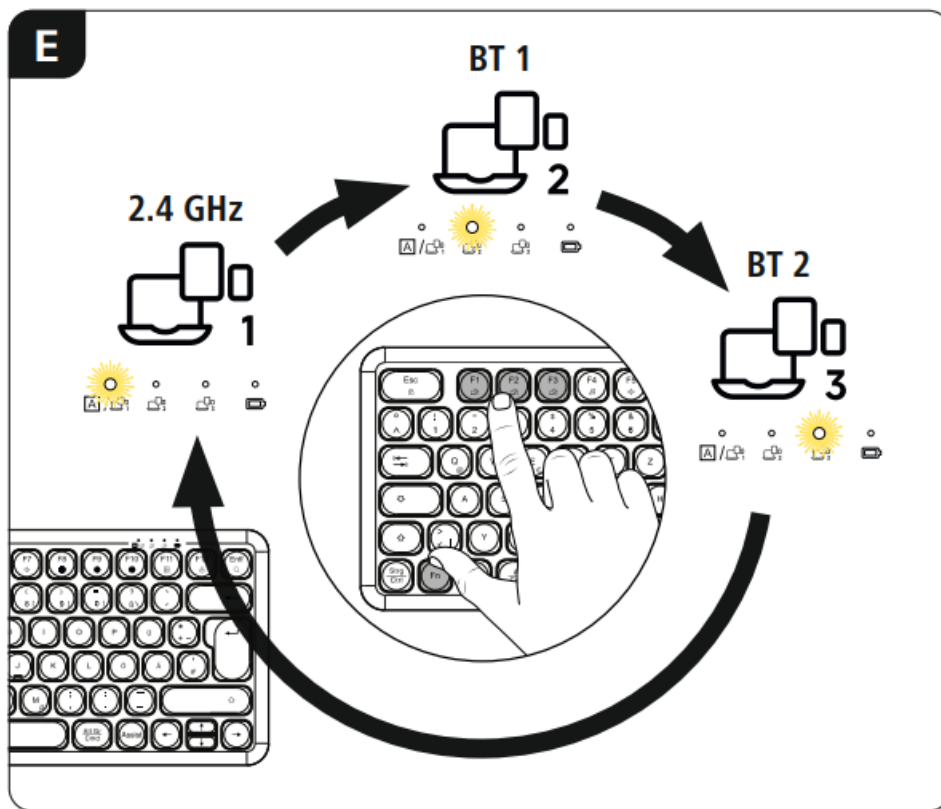

To pair the keyboard in Bluetooth mode, follow these steps:

1. Activate Bluetooth pairing mode on the keyboard by pressing the designated button (C).

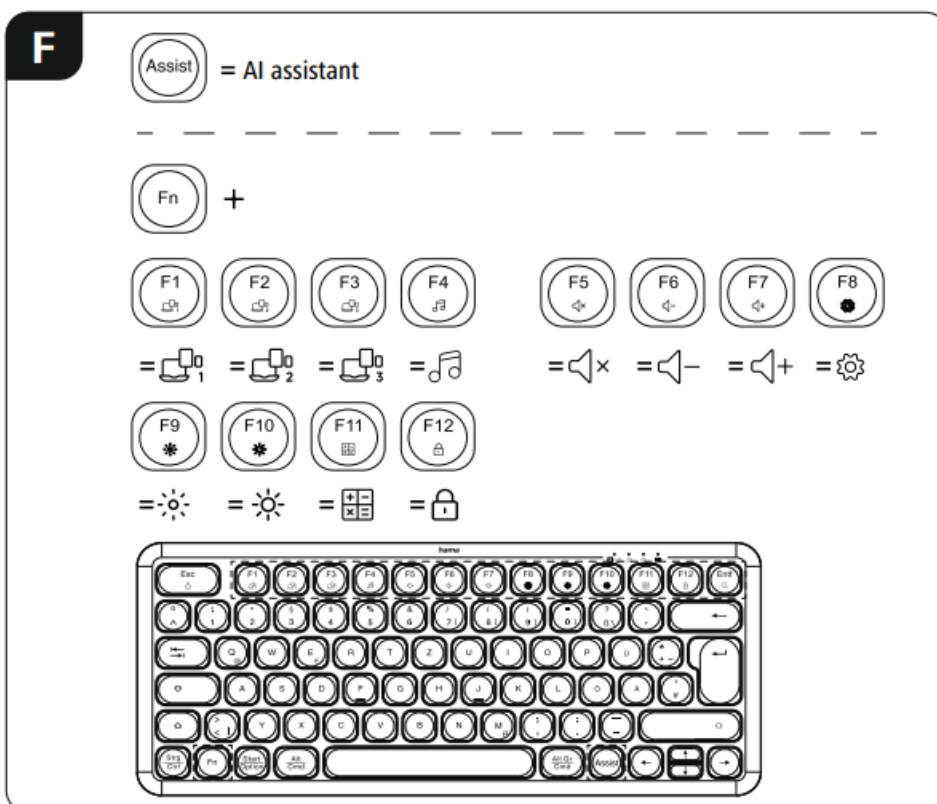

2. On your device (Android, Windows, MacOS, iOS, iPadOS), search for available Bluetooth devices.
3. Select the keyboard from the list of available devices to pair.
4. Follow any additional on-screen instructions to complete the pairing process.

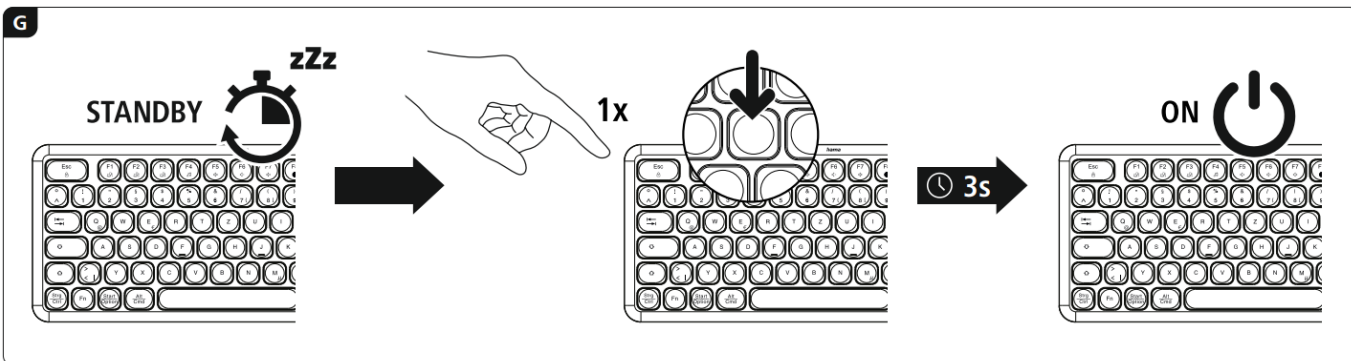

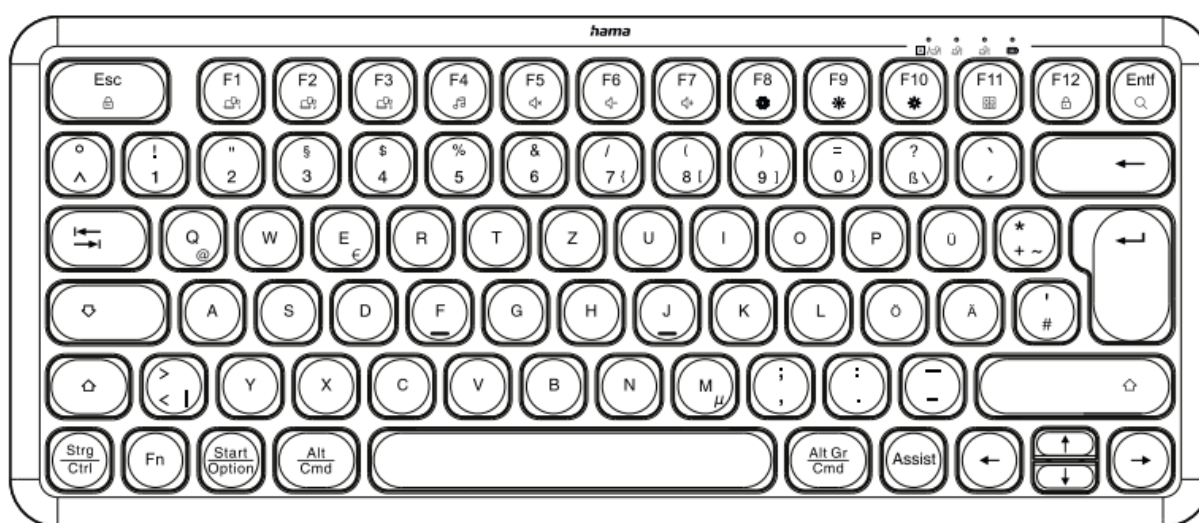

Using the AI Assistant:

The keyboard features an AI assistant accessible by pressing the designated button (F). Use the assistant for various tasks and commands.

FAQs

Q: What should I do if the keyboard is not connecting via Bluetooth?

A: If you are experiencing issues with Bluetooth connectivity, try the following steps:

- Ensure the keyboard is in Bluetooth pairing mode.
- Check if the device you are trying to connect to is within range.
- Restart both the keyboard and the device.
- If issues persist, refer to the user manual for troubleshooting or contact customer support.

Q: How do I switch between 2.4 GHz and Bluetooth modes on the keyboard?

A: To switch between modes, use the designated buttons for 2.4 GHz (B) and Bluetooth (C) pairing modes on the keyboard. Press and hold the respective button to activate the desired mode.
