hama WM-800 Multi Device Mouse

Instruction

D**E****F**

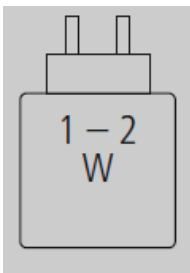

Operating instruction

Read the warnings and safety instructions on the enclosed note before using the product.

Safety Notes

- Use the item only in moderate climatic conditions.
- Do not throw the battery or the product into fire.
- Do not tamper with or damage/heat/disassemble the batteries/rechargeable batteries.

The power delivered by the charger must be between min 1Watts required by the radio equipment, and max 2Watts in order to achieve the maximum charging speed.

The standardized USB interface means that a charger with a higher output power can also be used.

Warning -changeable rechargeable battery

- Only use suitable chargers or USB ports to charge the product.
- Do not use defective chargers or USB ports and do not attempt to repair them.

- Do not overcharge or deep-discharge the product or rechargeable battery.
- Avoid storing, charging and using in extreme temperatures and at extremely low atmospheric pressures (such as at high altitudes).
- When stored over a long period of time, batteries should be charged regularly (at least every three months).
- Do not incinerate the rechargeable battery or the product.
- Do not tamper with or damage/heat/disassemble the batteries/ rechargeable batteries.
- Do not short-circuit the batteries/rechargeable batteries and keep them away from bare metal objects.
- Only use batteries (or rechargeable batteries) that match the specified type.
- Keep the instructions for the correct choice of rechargeable battery/battery in the device operating instructions for future reference.

Battery charging

- The product contains a rechargeable battery.
- Charge the mouse fully before using it for the first time.
- If the Power LED is flashing or if there is no reaction/connection after switching it on, the mouse needs to be charged.
- Connect the supplied USB charging cable to the USB-C connection on the mouse.
- Connect the free plug on the USB charging cable to a suitable USB charger.
- To do this, consult the operating instructions for the USB charger you are using.
- The status LED now lights up solid red and the mouse is charging.
- Once the charging process is complete, the status LED goes out.
- The actual battery life will vary depending on how you use the device, the settings and the environmental conditions (batteries have a limited life).
- Only use the USB charging cable included for this product.

Warning – Specific instructions for battery change

- Do not allow children to change rechargeable batteries without supervision. Keep batteries/rechargeable batteries out of the reach of children.
- Only use the tools recommended in these operating instructions to avoid damage.
- Ensure that the rechargeable battery is as discharged if possible before replacing it.
- Ensure that the device is switched off and disconnected from the power supply before

removing the rechargeable battery.

- Avoid damage caused by electrostatic discharge when changing the rechargeable battery. Wear antistatic gloves if necessary.
- Refer to the operating instructions for information on the correct polarity for replacing the rechargeable battery. There is a risk of leakage or explosion if this is not observed.
- Dispose of replaced rechargeable batteries in accordance with the locally applicable safety and disposal regulations.
- Always follow the instructions for changing the rechargeable battery and consult specialised personnel in the event of problems or uncertainties.
- Attention! Hama accepts no responsibility for the safety of non-approved rechargeable batteries and no warranty for any resulting damage.

Specifications according to Regulation (EU) 2023/826
