Hangshi Technology

Hangshi Technology HD357-3 Wireless Keyboard

Product Information

The HD357-3 wireless keyboard is a compact and versatile keyboard designed for use with various devices. It features a rechargeable lithium battery with a capacity of 1000mAh, providing long-lasting usage. The keyboard has a sleek design with dimensions of 434.27*120.77*21.06mm, making it portable and easy to carry.

The keyboard has a key life of 3 million clicks, ensuring durability and longevity. It operates at a voltage range of 3.0V to 4.2V, compatible with WINDOWS, IOS, and ANDROID operating systems. The operating range of the keyboard is less than 10 meters, providing flexibility and convenience in usage.

The HD357-3 wireless keyboard also includes indicator lights for charging and caps lock status. It supports both 2.4G and Bluetooth connections, indicated by separate channel indicators. The keyboard offers various keys and functions for different platforms, including IOS, Windows, and Android.

Bluetooth 2 Channel	Backlight control		

Product Usage Instructions

Pairing Instruction – 2.4G Connection:

1. Switch the keyboard power ON.
2. Take out the USB receiver from the backside of the keyboard.
3. Plug the USB receiver into the USB port of the device.

4. Press the 2.4G channel key. The 2.4G status indicator will flash slowly, indicating that the keyboard is in 2.4G mode.

Keyboard Charging:

When the battery is low, the power indicator light will start to flash until the keyboard turns off. To ensure the best user experience, recharge the keyboard as soon as possible. Low battery may cause poor connection quality and result in delays or other problems while using the keyboard.

The power indicator light turns red while charging and will turn green once fully charged. A full charge cycle takes about 2-3 hours.

Power Saving Mode:

The keyboard enters sleep mode after being idle for 30 minutes. To activate it, press any key and wait for 3 seconds. Please note that there may be a typing delay of 3 seconds after activation.

Safety Instructions:

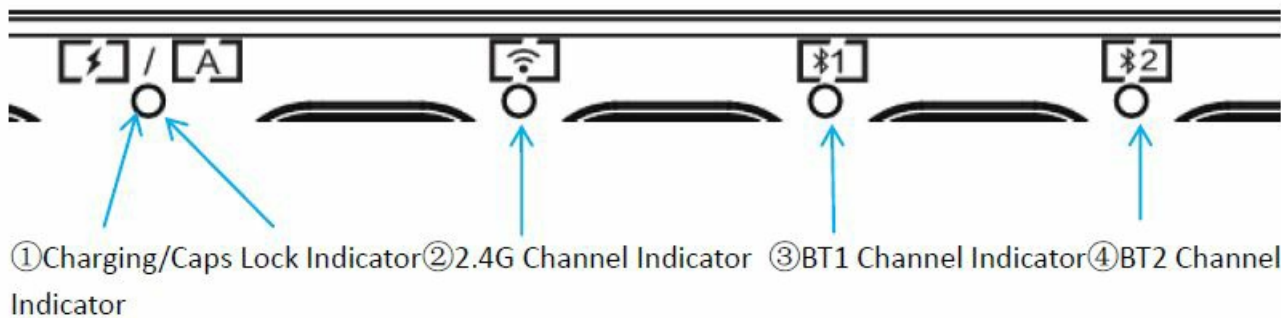

1. Keep the keyboard away from sharp objects that could damage it.
2. Do not put heavy objects on the keyboard.
3. Avoid spilling coffee, tea, or other liquids on the keyboard.
4. Ensure proper antenna placement and separation between the keyboard and other equipment to maintain optimal performance.
5. Consult the dealer or an experienced radio/TV technician for assistance with any changes or modifications to the equipment.

Please follow these instructions carefully to use the HD357-3 wireless keyboard effectively and safely.

Specifications

3. Please do not spill coffee, tea or other liquids on the keyboard

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.
