This product is only to be used for its intended purpose.

Intellectual Property Rights

Dahua Technology retains all intellectual property rights relating to the technology embodied in the product described in this document.

Equipment Modifications

This equipment must be installed and used in strict accordance with the Instructions gave in the user documentation. This equipment contains no user-serviceable, Components. Unauthorized equipment changes or

modifications will invalidate all applicable regulatory certifications and approval.

Trademark Acknowledgments

athua athua HDCVI, Imo are registered trademarks or trademark applications of Dahua Technology in various jurisdictions. All other company names and products are trademarks or registered trademarks of their respective companies.

REGULATORY INFORMATION

This product complies with the applicable CE marking directives and standards:

- Low Voltage (LVD) Directive 2014/35/EU.
- Electromagnetic Compatibility (EMC) Directive 2014/30/EU.
- Restrictions of Hazardous Substances(RoHS) Directive 2011/65/EU and its amending Directive (EU) 2015/863.

A copy of the original declaration of conformity may be obtained fromn Dahua Technology The most up to date copy of the signed EU Declaration of Conformity (DoC) can be downloaded from:

www.dahuasecurity.com/support/notice/ CE-Electromagnetic Compatibility (EMC) This digital equipment is compliant with Class B according to EN 55032.

CE-Safety

This product complies with IEC/EN/UL 60950-1 or IEC/EN/UL 62368-1, Safety of Information Technology Equipment. Declaration of Conformity CE (Only for the product has RF function) Hereby, Dahua Technology declares that the radio equipment is compliant with Radio Equipment Directive (RED) 2014/53/EU. The full text of the EU decaration of conformity is available at the following internet address:

www.dahuasecurity.com/support/notice/ USA Regulatory Compliance

FCC

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two Conditions

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

The attention that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 or the FCC Rules. nese limitS are designed to provide reasonable protection against harmful interference n a residential installation Uses, ana can radlare the instruction a s harmful interference to radio communications However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user Is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that too
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure warning

(Only for the product has RF communication function) This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance. This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.

Canada Regulatory Compliance

ICES-003

This Class B digital apparatus complies with Canadian ICES-003. This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions

- This device may not cause interference, and
- This device must accept any interference, including interference that may cause undesired operation of the device.

RF exposure warning

(Only for the product has RF communication function) This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Japan Regulatory Compliance

These products comply with the requirements of VCCI Class B Information Technology Equipment.

Batteries

Correct disposal of batteries in this product

This marking on the battery indicates that the batteries in this product should not be disposed of with other household waste at the end of their Working life. Where marked, the chemical symbols Hg, Cd or Pb indicate that the battery contains mercury, cadmium or lead above the reference levels in Directive 2006/66/EC and its amending Directive 2013/56/EU. If batteries are not properly disposed of, these substances can cause harm to human health or the environment.

CAUTION

Risk of explosion if the battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.

Safety

The product complies with IEC/EN/UL 60950-1, Information Technology Equipment – Safety – Part 1: General Requirements; or complies with IEC/EN/UL 62368-1, Audio/video, information and communication technology equipment- Part 1: Safety requirements. If the power supply to the product is from an external power adaptor

without connecting to AC Mains, and the product is not shipped with power adaptor, customers are required to use the external power adaptor that must fulfill the requirements for Safety Extra Low Voltage (SELV) and Limited Power Source (LPS). Waste Electrical and Electronic Equipment (WEEE) statements

Disposal and Recycling

When this product has reached the end of its useful life, dispose of it according to local laws and regulations. For information about your nearest designated collection point, contact your local authority responsible for waste disposal. In accordance with local legislation, penalties may be applicable for incorrect disposal of this waste. This symbol means that the products With household or commercial waste Di electrical and electronic equipment (WEE Union member states. To prevent potential environment, the product must be dispo environmentally safe recycling process. For a designated collection point, contact your waste disposal. Businesses should con information about how to dispose of this pro

Privacy Protection Notice

As the device user or data controller, you others such as face, fingerprints, car plate number, GPS and so on. You need to be privacy protection laws and regulations to p interests of other people by implementing limited to: providing clear and visible ident the existence of surveillance area and providing related contacts

Important Safeguards and Warnings

This Chapter describes the contents covering proper handling of the device, hazard prevention, and prevention of property damage. Read these contents carefully before using the device, comply with them when using, and keep it well for future reference.

Safety Instructions

- The following categorized signal words with defined meanings might appear in the manual.
- Abide by local electrical safety standards to ensure that the voltage is stable and complies with the power supply requirement of the device.
- Transport, use, and store the device under the allowed humidity and temperature conditions. Refer to the corresponding technical specifications of the device for specific working temperature and humidity.
- Do not place the device in a location exposed to dampness, dust, extreme hot or cold, strong electronic radiation, or unstable lighting Conditions.
- Do not install the device in a place near the heat source, such as a radiator, heater, furnace, or other heat-generating device to avoid fire.
- Prevent liquid from flowing into the device to avoid damage to internal Components.
- Install the device horizontally or install on a stable place to prevent it from falling
- Install the device in a well-ventilated place, and do not block the ventilation of the device.
- Do not disassemble the device arbitrarily.
- Avoid heavy stress, violent vibration, and soaking during transportation, storage, necessary during the transportation.
- Use the factory package or the equivalent for transportation. the transportation Complete package is

Battery

Low battery power affects the operation of the RTC, causing it to reset at every power-up. When the battery needs replacing, a log message will appear in the product's server report. For more information about the server report, see the product's setup pages or contact Dahua Support.

WARNING

Risk of explosion if the battery is incorrectly replaced. Replace only with an identical battery or a battery which is recommended by Dahua. Dispose of used batteries according to local regulations or the battery
