hauck Alpha Play Sorting Set

Product Usage Instructions

Training Hand-eye Coordination:

By sliding the elements around, your child can train logical thinking, coordination between visual perception and fine motor skills, as well as recognition of colors and shapes.

Combining with Additional Toys:

The play tray can be combined with up to two hauck toy attachments, allowing your child to train different skills simultaneously. Attach additional toys securely using wooden screws.

Easy Installation:

The play tray can be easily clicked onto the front bar of the wooden highchair for quick setup and removal. Ensure stability by securing the toys with the provided wooden screws.

Safety Features:

For safe seating during playtime, use the play tray with the highchair harness. The toy attachment is made from sustainable wood, and the play tray is constructed from recycled materials.

Easy Cleaning:

The smooth surface of the play tray allows for easy cleaning with traditional cleaning agents. Simply wipe clean with a cloth for quick maintenance.

FAQ

Q: Can the play tray be used with other highchairs?
