Product Specifications

Model No.	HV4002T-3-BLK-RND	HV4002T-3-WHT-RND
Name	Revo	
Material	Aluminium	
Colour	Black	White
IP Rating	IP20	
Input Voltage	240v AC	
Protection Class	1 (Requires Earth) 	
Lamp Base	Built in LED	
Lamp Wattage	3x 8w	
Colour Temp	TRI Colour – 3000k, 4000k, 5500k	
Lumens	3x 6401m, 3x 6801m, 3x 7201m	
CRI	>80+	
Wiring	Parallel	
Dimmable	Yes	
Warranty	3 Years Replacement*	

Important Safety Issues:

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Lighting does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- Aluminium and 304SS fittings must not be installed within 5km of any salt water environments.
- All o-rings and seals must be in place correctly to maintain warranty
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

Mounting Base Diagram

Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove allen screws on side of fitting and set aside.
3. Install base plate in desired location
4. Connect the cable – use wire with earth; connect the earth first, then live and neutral wire
5. Fitting is preset to 3000k, to change slide switch to desired colour temperature
6. Reattach fitting to base plate making sure allen screws are tight.
7. Adjust fitting to desired position making sure to stop rotating when fitting cannot rotate anymore, If forced fitting will continue to rotate and cause internal cables to become entangled causing fitting to short. If this is done, warranty will be voided.
8. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

Must be installed by a licensed electrician
