Features and Benefits

- Utilizes Endogean's™ wireless technology
- Uses ambient light energy for self-powering capability
- Requires no building power
- Installation is simple and easy
- Requires no complicated cabling or wiring
- 3-4 week power storage capability

THE THERMOSTAT WARS ARE OVER.

Comfort for all.

Helios is a breakthrough in comfort and energy savings. With optional wireless thermostat & postmaster, multiple spaces no longer need to be lumped together in the same zone. Instead, each diffuser can be controlled separately. Powered by ambient light, Helios needs no building power or additional additional ductwork to create the desired comfortable space. When it comes to VAV diffusers, it's time to see the light.
