Hexatronic 19 Inch LightMate Stackable Patch Panel

Specifications

- Product Name: LightMate Patch Panel Stackable 19-inch
- Features: Complete with interior for fiber splicing and marking for SC and LC

- Size: 19 inch
- Compatibility: SC and LC fiber connectors

Installation

1. Choose a suitable location for mounting the patch panel, ensuring easy access to fiber connections.
2. Securely mount the panel using appropriate screws and tools.
3. Connect the incoming fibers to the corresponding SC or LC connectors in the panel.

Fiber Splicing

1. Open the patch panel to access the interior for fiber splicing.
2. Carefully splice the fibers together using appropriate tools and techniques.
3. Ensure proper alignment and secure the spliced fibers in place.

Marking

1. Use the provided marking labels to identify and label the SC and LC connectors for easy reference.
2. Ensure the labels are securely attached and visible.

LightMate Patch Panel Stackable 19-inch

Complete with interior for fiber splicing and marking for SC and LC

Characteristics

FAQs

Q: Can I stack multiple LightMate Patch Panels?

A: Yes, the LightMate Patch Panel is designed to be stackable for efficient use of space in your network setup.

Q: What tools are recommended for fiber splicing?

A: We recommend using fusion splicers or mechanical splicing tools for precise and reliable fiber splicing results.
