FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This Equipment generates,uses and can radiate radio frequency energy and,if not installed and used in accordance with the instructions,may cause harmful interference to radio communications.

However,there is no guarantee that interference will not occur in a Particular installation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Specifications:

- **Model:** XYZ-500
- **Power:** 1200W
- **Capacity:** 1.5 liters

- **Material:** Stainless steel
- **Dimensions:** 10 x 8 x 12 inches

Product Usage Instructions:

1. Initial Setup:

Before using the XYZ-500 electric kettle for the first time, make sure to remove all packaging materials and labels.
Fill the kettle with water up to the maximum capacity line and plug it into a power outlet.

2. Boiling Water:

To boil water, press the power button on the kettle. The kettle will automatically turn off once the water reaches boiling point.
Carefully pour the hot water from the spout when ready.

3. Cleaning and Maintenance:

After each use, unplug the kettle and allow it to cool down.
Wipe the exterior with a damp cloth and clean the interior with a mixture of water and vinegar to remove any mineral deposits.

Frequently Asked Questions (FAQ):

Q: Can I use the kettle to boil liquids other than water?

A: It is recommended to only use the electric kettle for boiling water to maintain its performance and longevity.

Q: Is the kettle cordless?

A: No, the XYZ-500 electric kettle comes with a cord that needs to be plugged into a power outlet for operation.
