BLUETOOTH CONNECT AND CHANGE DEVICE

Bluetooth Connection

Turn on the power switch: The power indicator light will briefly turn red and then go off.

1. Press and hold the combination key "fn+l' for 3 seconds. The blue light will flash, indicating that the keyboard is in Bluetooth pairing mode.
2. On the device you want to pair with, open Settings – Bluetooth – Search for Bluetooth devices: iBOX 11 KB, click to connect. After successfully connecting to Bluetooth device 1, the blue light will turn off.
   You can use the same method by long-pressing the combination keys 'fn+2' and "fn+3' to connect Bluetooth device 2 and Bluetooth device 3.

Channel Switching

Press the 'fn+1' combination key briefly to select Bluetooth device 1. The blue light will flash once and then turn off. You can use the same method by briefly pressing the "fn+2" and "fn+3" combination keys to switch to Bluetooth device 2 and Bluetooth device 3.

Press fn+1 for 3S, enter pairing mode

Press fn+1 for 1S, turn to bluetooth device 1

Press fn+2 for 3S, enter pairing mode

Press fn+2 for 1S, turn to bluetooth device 2

Press fn+3 for 3S, enter pairing mode

Press fn+3 for 1S, turn to bluetooth device 3

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the

user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet the general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Frequently Asked Questions
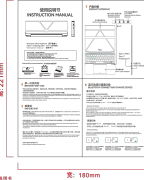

Q: How can I quickly access the search function from the home page?

A: You can access the search function directly from the home page by tapping on the search icon or search bar available on the main screen of the app.

Q: Can I customize the search settings within the app?

A: Yes, you can usually customize search settings such as filters, sorting options, and search history within the app's settings menu. Refer to the app's settings or preferences section for more information on customization options.
