HIVE Thermostat for Heating

Hive Thermostat for Heating

(Hub less / Multizone Self Install)
Heating control from your smartphone, tablet and laptop as your main heating control or an upgrade to control additional heating zones

Product overview

Take control of your heating anytime, anywhere. Hive makes controlling your heating easy from your mobile, tablet or laptop. The updated Hive Thermostat brings an elegant and sleek touch-button design, intuitive control and easy-to-use features.
Hive works no matter who supplies your energy and will work with your existing heating system. With Hive, you'll never need to heat an empty home again so you could save up to £110 a year on your heating bills.
Hive Thermostat for Heating (Hubless / Multizone) can be used to control your heating if you already have a Hub, and also to control additional heating zones
in your home. If you already have a Hive Thermostat but wish to install or replace an additional thermostat for another heating zone (e.g. upstairs), the Hive Thermostat for Heating (Hub less / Multizone) will let you control schedules and temperatures for each zone.

Product features

- Heating schedules – set up to six daily time slots
- Heating Boost – for up to six hours
- Automatic Frost Protection – helps prevent frozen pipes
- Child lock* – put a pin lock on your app or thermostat so children can't tamper with it
- Geolocation* – heating alerts when you leave or return home
- Holiday Mode* – tell Hive your holiday dates and come back to a warm welcome
- Temperature graphs – keep track of how you are using your heating (web only)

Box includes

- Hive Thermostat
- Receiver

- 4 x

  batteries AA Lithium
- User guide
- 1 x Installation guide

Key messages & benefits

- Control your heating from your smartphone, tablet or laptop.
- New-look Hive Thermostat with touch buttons –a fresh take on the classic design.
- No need to switch energy supplier.
- Works with your existing boiler.
- Save up to £110 a year on your heating bills.

Your Hive kit

- Wireless Thermostat – lets you control your heating when you're at home.
- Receiver – enables your thermostat and hub to communicate with your boiler.

Extra info

- New-look Hive Thermostat is not compatible with the interchangeable cultured frames.
- Hive Thermostat for Heating must be installed by a qualified professional.
- Hive Thermostat for Heating is suitable for homes that have a combo boiler. If you do not have a conventional boiler with a separate hot water tank, then Hive Thermostat for Heating and Hot Water is the right product for you.
