HMF 311 Padlock Key Box Combination Lock

Product Information

The Padlock (ART.-NO.: 311) is a key safe with a combination lock. It is designed to securely store keys and other small items. The lock can be opened using a four-digit combination that can be set by the user.

Product Usage Instructions

1. Open the key safe by pushing the black bar upwards.
2. Set the small lever located on the inside of the combination lock to letter A.
3. Set a four-digit combination of your choice.
4. Set the lever to letter B and note down your four-digit combination.
5. Close the key safe and modify the lock to lock it. The number combination is now stored.

PADLOCK

1. Please open the key safe by pushing the black bar upwards.
2. Then, please set the small lever you can find on the inside of the combination lock to letter "A".
3. Now you can set a freely selectable combination.
4. Afterwards, please set the lever to letter „B“ and note your four-digit combination.
5. If you now shut the key safe, you can lock the key safe by modifying the lock.

The number combination is stored now. To change the combination repeat steps 1-4.
