B0CB43C8HV LED Par Stage Light

Product Information – LED PAR Light

Product Name: Battery Powered Par Can

Description: This LED PAR Light is a battery-powered par can that provides bright and colorful lighting effects. It comes with a remote control unit for convenient operation.

Product Usage Instructions

Before Using the Unit

Confirm the contents of the package and ensure that all the standard accessories are included:

- Remote control unit x 1
- Battery (CR2025/2032) for remote control unit x 1
(pre-installed)
- Rechargeable par light x 1
- Fixing Screws x 2
- Mounting Brackets x 2
- Dedicated AC adapter x 1
- Owner's manual x 1

Battery Replacement Time

If the distance required between the remote control unit and main unit decreases, or the remote control unit's buttons don't work, it indicates that the battery is exhausted. In this case, follow these steps to replace the battery:

1. Pull out the battery tray from the rear of the remote control unit.
2. Remove the old battery and insert a new lithium-ion battery (CR2025/2032) with the + side facing up.
3. Insert the battery tray back into the remote control unit.

Connecting the AC Adapter

To charge the LED PAR Light, follow these steps:

1. Connect the charging port of the LED PAR Light to the dedicated AC adapter cord.
2. Plug the AC adapter into an outlet.
3. While charging, the indicator will light up in red.
4. When the battery is fully charged, the indicator will turn green.

Connecting the DMX Signal

To connect the DMX signal, refer to the provided owner's manual for detailed instructions.

Notes on Using the Remote Control Unit

Before using the remote control for the first time, make sure to remove the insulation sheet from the rear of the remote control unit.

Keep in mind that obstacles between the remote control unit and the LED PAR Light may affect the unit's response, even within the effective operation range of 10m / 35 feet.
