Product Usage Instructions
Product Installation

1. Install Solidcom C1 headset:
    - Plug the headset into the 3.5 mm port of the HUB Base and rotate the nut clockwise to secure the headset.
    - Move the microphone boom down until you hear a 'click'. You can now start talking.
    - To listen only, make the microphone boom upright. You will hear a 'click' sound, and the microphone will mute.

FAQ

- **Q: What should I do if I experience interference during usage?**

◦ **A**: If you experience interference, ensure that the headset is properly connected to the HUB Base. Check for any obstructions or other electronic devices that may be causing interference. If the issue persists, contact HollylandTech support for assistance.
- **Q: How do I clean the headset?**
  ◦ **A**: Use a soft, dry cloth to gently wipe the headset's surfaces. Avoid using harsh chemicals or liquids that may damage the headset's components. Ensure the headset is unplugged before cleaning.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference
2. this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The device has been tested and complies with FCC SAR limits.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a

residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
