Safety and maintenance

STRUCTURE

1. base
2. glass bottle
3. glass nozzle
4. atomizer

5. touch button

IMPORTANT SAFETY INSTRUCTIONS

READ THE INSTRUCTION MANUAL CAREFULLY BEFORE USE AND RETAIN IT FOR LATER REFERENCE!

WARNINGS

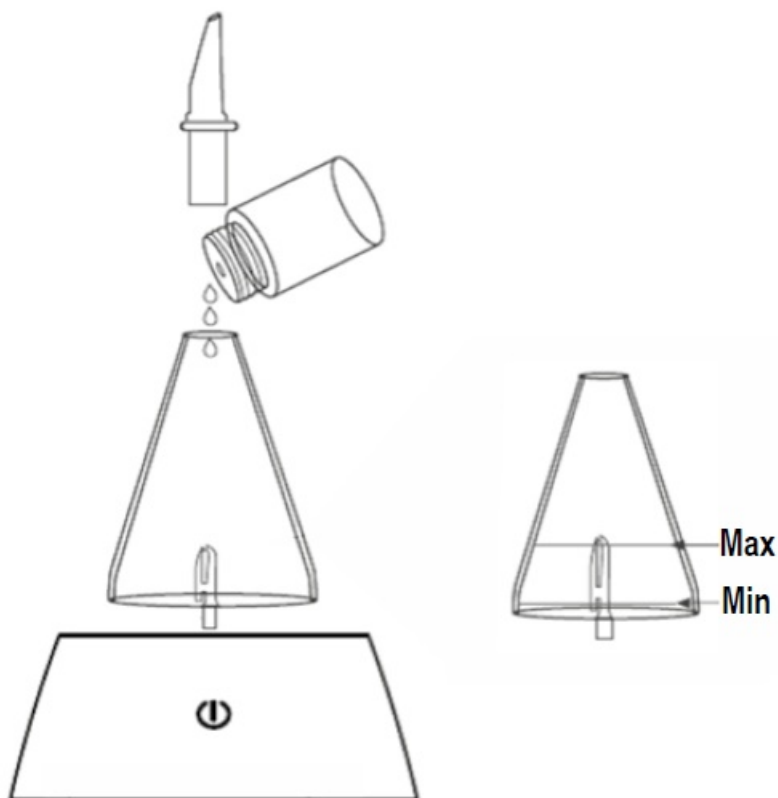

1. Before using the product for the first time, please read the instructions for use below and retain them. The original instructions were written in the Hungarian language.
2. This appliance may only be used by persons with impaired physical, sensory or mental capabilities, or lacking in experience or knowledge, as well as children from the age of 8, if they are under supervision or have been given instruction concerning use of the appliance and they have understood the hazards associated with use. Children should not be allowed to play with the unit. Children may only clean or perform user maintenance on the appliance under supervision.
3. Make sure that the device was not damaged during shipping.
4. For indoor use only.
5. Keep the device away from heating and other electronic devices.
6. Only use with the AC adapter supplied with the device or one identical to it in its nominal values.
7. Only connect the device to sockets with a 230V~ / 50Hz rated supply voltage.
8. Always fully unroll the supply cable.
9. Never cover the AC adapter as this can lead to overheating and fire!
10. Never try to connect the device to the AC network when your hands are wet!
11. Do not run the connection cable across the device.
12. Do not run the connection cable under carpets, mats, etc.
13. Keep the device in a place, where the power supply plug can be easily reached and unplugged.
14. Run the power supply cable so that it cannot be accidentally disconnected, and it does not create a risk of stumbling.
15. If the mains cord is damaged, disconnect the appliance immediately and seek the help of a professional.
16. Corrosive aroma oils, such as citronella and lemongrass may damage the glass bottle.
17. Do not use for more than 2 hours at a time; let it rest for 30 minutes every 2 hours.
18. Do not overfill the product; only fill the bottle with aroma oil up to the max indicator.
19. Only use high-quality, natural, 100% aroma oils.
20. Do not put water into the device.
21. Before cleaning, refilling the glass bottle, moving the device, or performing any other type of maintenance, disconnect the device from the AC network by pulling out the plug.
22. Do not submerge the device; the device must not come into contact with water when operating.
23. Do not operate the appliance near children without supervision.
24. Fragile! The danger of cutting injury! Do not let children play with the device.
25. Never disassemble the device.
26. If you do not intend to use the device for a longer period of time, turn it off, unplug the connection cable, then clean the glass bottle.
27. The unit is intended for household use. No industrial use is permitted!
28. Due to continuous improvements, the technical data and design may change without any prior notice.

29. The actual instruction manual can be downloaded from the www.somogyi.hu website.
30. We don't take the responsibility for printing errors that may occur and apologize for them. Clean the water tank every three days.

Caution: Risk of electric shock! Do not attempt to disassemble or modify the unit or its accessories. In case any part is damaged, immediately power off the unit and seek the assistance of a specialist.

In the event that the power cable should become damaged, it should only be replaced with cables obtained from the manufacturer or its service facility, the manufacturer, its service facility or similarly qualified personnel.

ASSEMBLING AND SETTING UP THE DEVICE

1. Place the base on a solid, horizontal, flat surface!
2. Place the bottom of the glass bottle into the rubber socket found in the middle of the base.
3. You can now add 10-15 drops of good quality natural aroma oil into the glass bottle. Do not use artificial substances as they may damage the device.
4. Put the glass nozzle on the top of the glass bottle.
5. Connect the adapter plug to the device.
6. Connect the adapter to a standard 230V~/50Hz grounded wall outlet.
7. Now the unit is ready for operation!

CLEANING

Clean the device once a week to prevent the atomizer from clogging.

1. Remove the glass nozzle and remove the glass bottle from the base.

2. Pour out the aroma oil from the glass bottle.
3. Clean the glass bottle using a neutral cleaning agent. Do not put a scrubber into the bottle since this can damage the atomizer.
4. Rinse the bottle with clean water and let it dry.

TROUBLESHOOTING

Error observed	Possible solution
the atomizer does not work	check that the level of aroma oil is between the Min and Max symbols
	check the mains power supply
	the atomization is performed intermittently, it is possible that there is no fault
	it is possible that the atomizer is clogged; clean the device

DISPOSAL

Waste equipment must be collected and disposed of separately of household waste because it may contain components hazardous to the environment or health. Used or waste equipment may be dropped off free of charge at the point of sale, or at any distributor which sells equipment of identical nature and function. Dispose of products at a facility specializing in the collection of electronic waste. By doing so, you will protect the environment as well as the health of others and yourself. If you have any questions, contact the local waste management organization. We shall undertake the tasks pertinent to the manufacturer as prescribed in the relevant regulations and shall bear any associated costs arising.
