Roller shutter automation set

This quick user guide is only a part of the user manual for the included roller shutter motor, which informs about the safe handling of the product. The manual is available as a downloadable PDF on our service center webpage:

<https://service.homepilot-smarthome.com>

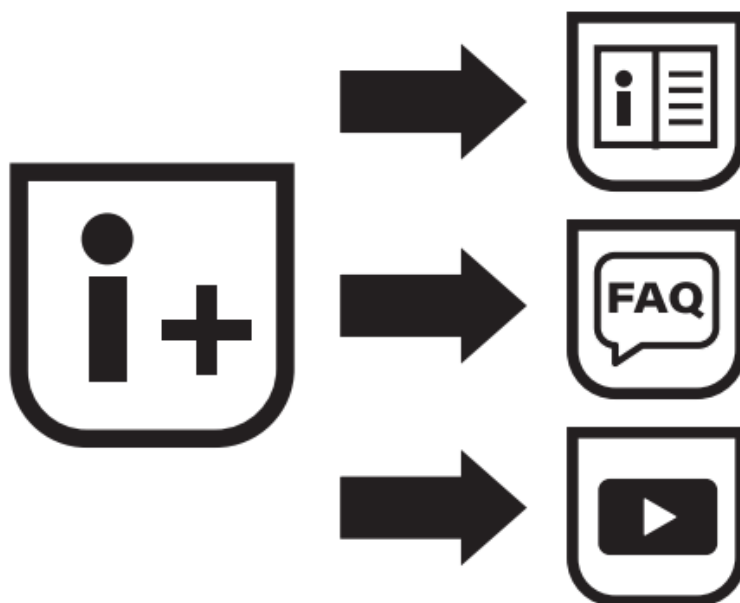

ATTENTION!

Minimum insertion depth of the telescopic shaft > 200 mm

ATTENTION!

After installation, fix the two parts of the telescopic shaft together using the flat-head screws provided.
