WIRELESS CHARGE

CAUTION

- Wireless charging covers are sold separately.
- Do not place the wireless charging cover solely on the wireless charger. Doing so may overheat the wireless charger and cause a fire. It may also result in serious burn or device malfunction.
- To charge a mobile device that does not have a built-in wireless charging coil, attach a wireless charging cover to the mobile device. Then, place the mobile device on the wireless charger.
- Do not place foreign materials, such as metal objects, magnets, and magnetic stripe cards, be- tween the mobile device and the wireless charger. The mobile device may not charge properly or may be damaged due to overheating.
- When the mobile device is fully charged, remove it from the wireless charger.
- When the mobile device is not placed on the charging surface properly, or depending on the location of the mobile device's wireless charging coil, your mobile device may not charge properly.
- Depending on the location of the mobile device's wireless charging coil, your mobile device may not charge properly.
- Wireless charging may not work properly if you have attached a thick case to your mobile device. If your case is thick, remove it before placing your mobile device on the wireless charger.
- If you use the wireless charger in areas with weak network signals, you may lose network reception.
- If you connect a charger to the mobile device during wireless charging, the wireless charging feature will be unavailable.
- The wireless charger is compatible with Wireless Power Consortium (WPC) certified devices.

CARE AND MAINTENANCE

Read the following recommendations before using the unit . Following these you will be able to enjoy our product for many years.

1. Keep the product dryand don 't put it in the damp place to avoid the product's internal circuit being affected.
2. Keep the product away from direct sunlight or hot places. High temperature will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.
3. Don't expose the product to cold areas as it may damage the internal circuit board.
4. Don't try to disassemble the product as it may get damaged if you are not a professional.
5. Don't let the product fall down onto the floor or other hard surfaces. The internal circuit might get damaged.
6. Don't use intensive chemical products or detergents to clean the product
7. Don't scratch the surface with sharp things.

No response from the clock radio
Disconnect and reconnect the power cable, then turn on the clock radio again.

NOTICE
