Honeywell

Honeywell HR91 Radiator Controller

Specifications:

- Model: evohome
- Model Number: HR9 1
- Power Source: 2 x AA LR6 batteries
- Dimensions: M30 x 1.5mm

Product Usage Instructions

Setting Up a New Zone:

1. Press and hold the SETTINGS button for 3 seconds.
2. Press the green tick button.
3. Press ADD ZONE.
4. Type a name for the new zone and press the green tick button.

Configuring Radiator Valve:

1. Press RADIATOR VALVE.
2. If you want to control the zone temperature with the evohome Controller, press YES; otherwise, press NO.

Binding Process:

1. Press the binding button for 5 seconds.
2. The LED will flash AMBER for up to 2 minutes while binding.
3. Successful binding is confirmed by the LED showing permanent GREEN for 5 seconds.

Final Steps:

You should receive a SUCCESS message on the evohome Controller. Press the green tick to add another radiator to the zone or press the red cross if not needed. Repeat these steps for each radiator controller.

FAQ:

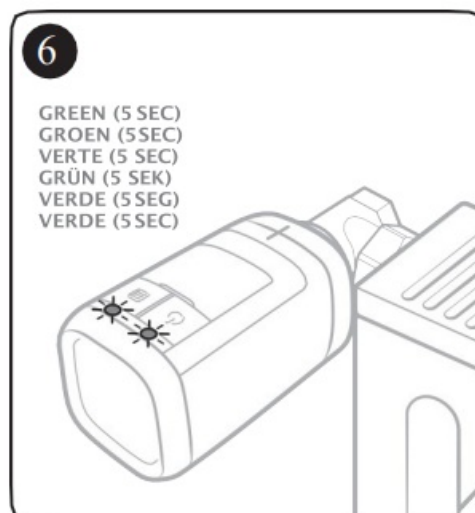

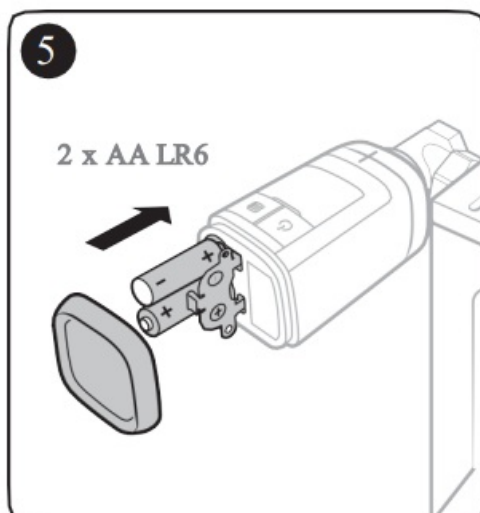

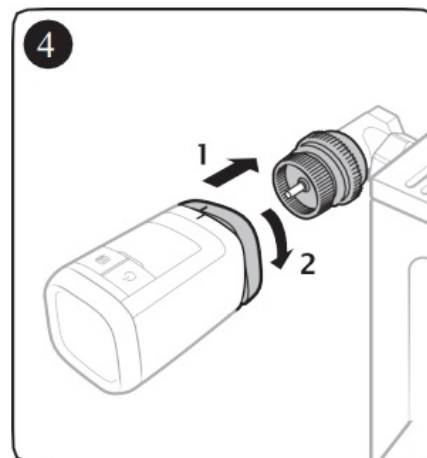

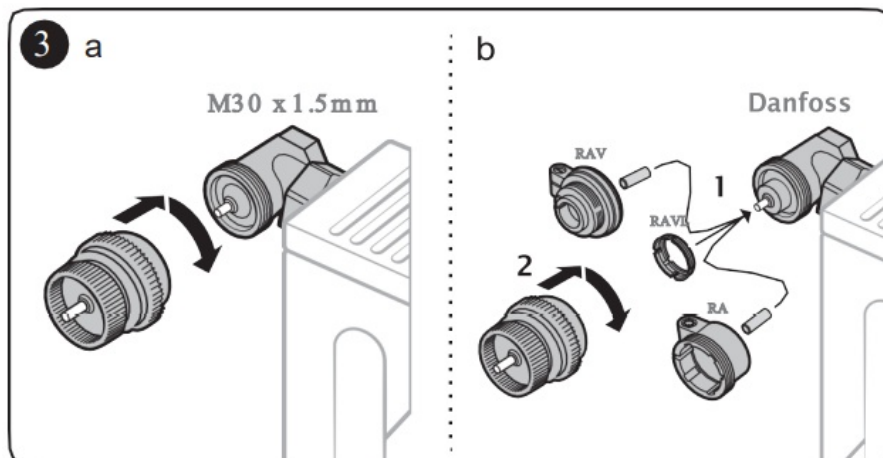

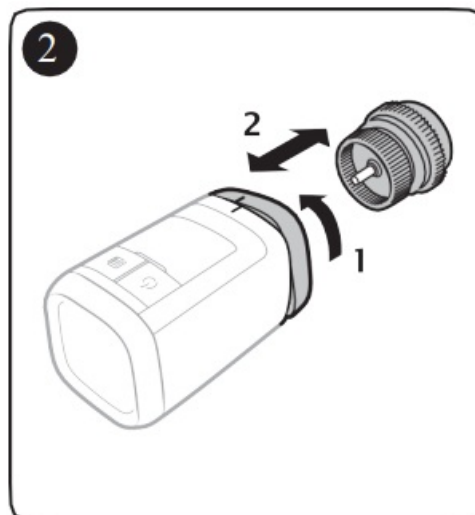

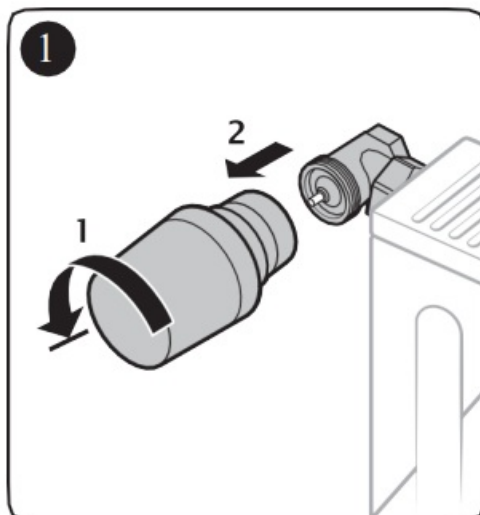

- **Q: How do I know if the binding process was successful?**

A: Successful binding is confirmed by the LED showing a permanent GREEN light for 5 seconds.

- **Q: Do I need to repeat the binding process for each zone?**

A: Yes, you must repeat the binding process for each radiator controller in every zone.
