**HONG KONG Q5 Wifi Camera** 

### **Product Specifications**

• Model: NNH

• Compliance: FCC radiation exposure limits

• Recommended Distance: Minimum 20cm between radiator and body

# **Product Usage Instructions**

### **Safety Precautions:**

It is important to follow these safety precautions to ensure safe usage of the product:

- Ensure the device is installed as per the recommended distance of a minimum 20cm between the radiator and your body.
- Avoid direct contact with the radiator during operation.
- Keep the device away from water or other liquids to prevent damage.

### Installation:

Follow these steps to install the device properly:

- 1. Choose a suitable location for installation where the recommended distance can be maintained.
- 2. Securely place the device ensuring it is stable and will not fall or move during operation.
- 3. Connect the necessary power source as per the provided instructions.

# **Operating the Device:**

Once installed, follow these guidelines for operating the product:

- Turn on the device using the designated power button or switch.
- Monitor the device during operation to ensure it functions correctly.
- If you experience any issues or abnormalities, discontinue use and seek assistance.

# **Frequently Asked Questions**

### Q: What should I do if I cannot maintain the minimum distance of 20cm?

A: It is recommended to adhere to the specified distance for safety reasons. If maintaining the distance is not possible, consider using additional shielding or consulting a professional for alternative solutions.

### **FCC Statement**

### FCC Caution.

### (1)§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference, and
- 2. this device must accept any interference received, including interference that may cause undesired operation.

### § 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. § 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **RF exposure Information**

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body.
