Bluetooth Function Introduction CD903TF

-  Before connecting with Bluetooth, please turn on the Bluetooth device that needs to be connected, and turn off other devices that do not need to be connected to avoid interferences;
-  In some cases some products may not be able to pair with this CD Player due to Bluetooth compatibility difference, please use the Audio Cable in the product accessories to connect. When a car stereo is not connecting, you can choose to use the FM transmitter to connect;
-  When connecting a Bluetooth device, please unplug the headset, Bluetooth and headset cannot output audio at the same time;
-  FM radio and Bluetooth cannot be used at the same time.

1. Bluetooth speaker/headset Connection:

1. When CD Player is on, hold  to turn on Bluetooth;
2. When  is flickering, the device is ready to connect;

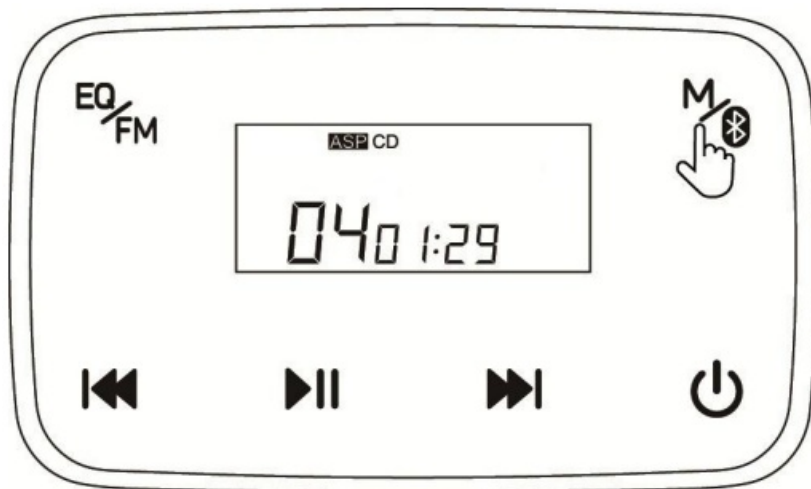

3. Turn on the Bluetooth speaker/headset to enter pairing mode;

4. Once connected,  will stop flickering, The connection process may take 20s~60s.

2. Car Bluetooth connection:

1. When CD Player is on, hold  to turn on Bluetooth;
2. When  is flickering, the device is ready to connect;
3. Turn on car Bluetooth, find the device "HOTT-CD" and match the connection automatically. Some car Bluetooth requires a PN code (which is initially 000000 and can be changed later);
4. Once connected,  will stop flickering.

3. Exit Bluetooth mode

➤ Hold  until the icon  disappears.

FM transmitter mode introduction CD903TF

- 🎧 The FM mode is only suitable for cars with FM function;
- 🎧 CD Player supports 5 fixed frequency points F87.5 F88.1 F89.1 F90.5 F95.5;
- 🎧 FM and Bluetooth cannot be used at the same time.

1. Car FM Connection

1. When CD Player is on, hold **EQ/FM** to turn on FM connection;
2. Hold **▶||** to switch frequency point F87:5 F88:1 F89:1 F90:5 F95:5;

3. Adjust the frequency of car tuner to the same frequency of the CD Player for connection;
For example adjust the frequency of both car equipment and CD Player to F90:5MHz and play music.
4. Press **▶||** to Pause/Play, press **◀◀** to replay the current track, press **◀◀** twice to find the previous track, Press **▶▶** to find the next track. (Only supports track switching or pause and play on the CD Player itself, not on receiving device.)

Tune the CD player and car stereo to the same frequency,
for the car stereo to receive the input from the CD player

2.Exit FM mode

➤ When FM mode is on, hold $\frac{EQ}{FM}$ to end FM connection mode.
