Product I/F:

Remote Control:

Usage Tips:

- Power Operation

Power On: Press the power key to turn on the CC360.

Power Off: While the CC360 is operating, press the power key to shut it down.

- Focus Adjustment:

The CC360 features an autofocus function that automatically adjusts images. If you find the projection display is not crisp enough, use the “F+” and “F-” keys on the

remote to sharpen the image.

- **Initial Setup:**

When using the CC360 for the first time, please follow the on-screen instructions to pair the Bluetooth remote and connect to Wi-Fi.

Bluetooth Remote Pairing:

If you skip the Bluetooth remote control during startup or if you need to set it up again, you can follow these steps:

Method 1: Press and hold” < ” and ” > ” keys on the remote control at the same time. When the indicator light flashes, it indicates that the device has entered Bluetooth pairing mode. Once the indicator light turns off, the Bluetooth pairing is complete.

Method 2: Setting Bluetooth → Add accessory

Wi-Fi Connection:

If you skip Wi-Fi configuration during the initial setup, you can configure it later

Setting → Wi-Fi turn on Wi-Fi →

Connect your Wi-Fi / Add new network

Start to Use:

Users can browse a vast library of audiovisual content via apps installed within the App Center or download apps from App Center’s store. Additionally, they can wirelessly mirror their smartphone’s screen, connect their computer or DVD player via HDMI, or access multimedia files from their USB drive.

Wireless Projection:

Note: Ensure that both the CC360 and your device are connected to the same network.

- **For IOS:** Open the Control Center and select “Screen Mirroring → HP Projector”

- For iOS and Android: Install the “TV Casting” app, open it, and follow the on-screen instructions to mirror your device’s screen.

• Speaker Mode:

The CC360 allows its speaker to function as a Bluetooth speaker when paired with your device. To enter “Speaker Mode”, locate and pair with “HP Projector BT.” Upon successful pairing, the projection screen will temporarily deactivate. Exit “Speaker Mode” by pressing the back key on the remote control.

• Setting:

Users can personalize projector settings, including network configuration, Bluetooth pairing, and other advanced system preferences.

• Advanced Features:

CC360 supports auto focus, auto keystone correction, auto obstacle avoidance, and auto screen fitting functions. Enable/disable it by going to: Setting → Projection → Auto Focus /Auto Keystone/Auto Obstacle Avoidance / Auto Access Screen, then press the “OK” key to apply changes.

Under manual keystone adjustment, select “4-point Keystone” or “4-side Keystone” to fine-tune the image alignment.
