## Product Usage Instructions

### Programming Keyboard Keys

1. Use the software provided.
2. If the software is not downloaded automatically, open the Microsoft Store.
3. Search for HP Accessory Center and download the app.

### Components Description

1. **Programmable keys:** To change default functions, use HP Accessory Center.
2. **Power light:** Solid white (5 s) indicates the keyboard is on. Slowly blinking amber means low battery – replace them.
3. **Receiver light:** Two white blinks and pauses (180 s) indicate the receiver channel is selected but not connected.
4. **Bluetooth buttons and lights:** Press the button for 2 s to enter pairing mode. Solid white (5 s) means connected. Slowly blinking white (180 s) indicates pairing mode.

**NOTE:** To save battery life, turn off the keyboard and numpad when not in use.

## FAQ

**Q: How do I know if the keyboard batteries are low?**

**A:** The power light will slowly blink amber to indicate low battery levels. Replace the batteries promptly.

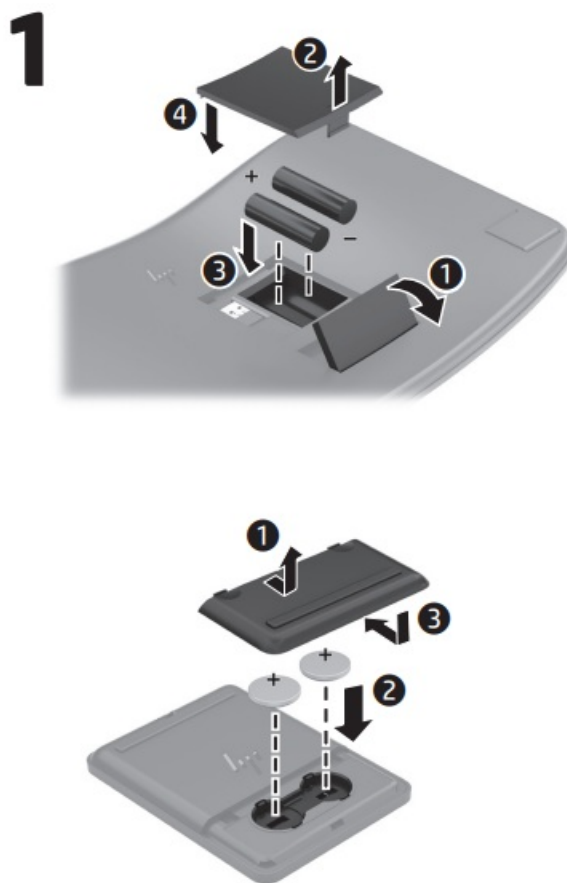

**Q: How do I pair the keyboard via Bluetooth?**

**A:** Press the Bluetooth button for 2 seconds to enter pairing mode. Enter the 6-digit PIN displayed on your computer to complete the pairing process.

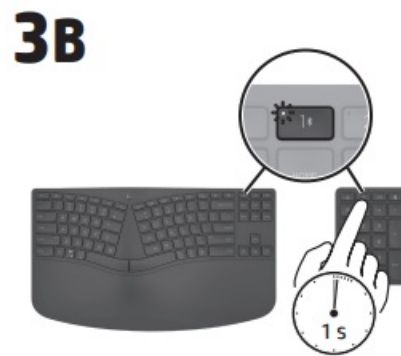

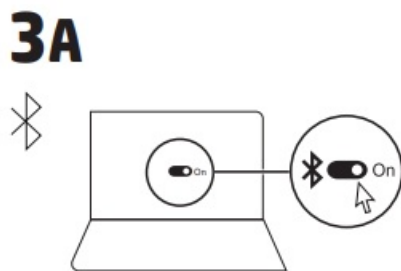

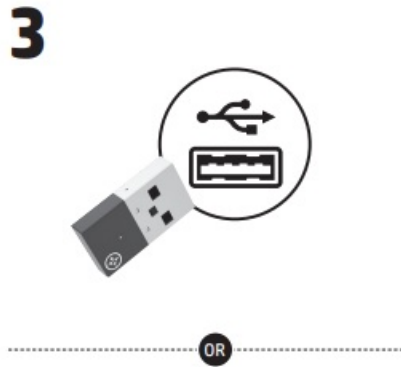

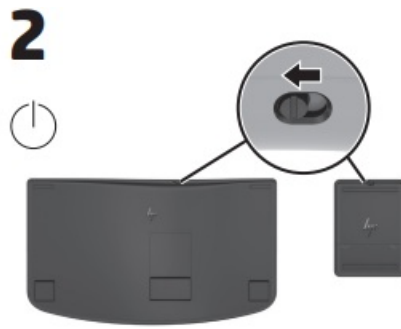

## OVERVIEW

## Battery Installation

## Usage Instructions

- Connect the keyboard and numpad to one computer using the receiver and up to two computers via Bluetooth®.
- To program the keyboard keys, use the software. If the software does not download automatically, on your computer, open Microsoft Store.
- Search for HP Accessory Center, and then download the app.

## Components description

### 1. Programmable keys

- To change the default functions, use HP Accessory Center.

### 2. Power light

- **Solid white (5 s):** The keyboard is on.

- **Slowly blinking amber:** The batteries are low. Replace the batteries.

### 3. Receiver light

- **Two white blinks and pauses (180 s):** The receiver channel is currently selected, and the receiver is not connected to a computer.
- **Solid white (5 s):** The keyboard is connected to the computer that the receiver is inserted into.

### 4. Bluetooth buttons and lights

- Press the button for 2 s to enter pairing mode to connect to a computer. To pair, enter the 6-digit PIN that displays on the computer.
- **Solid white (5 s):** The keyboard is connected or reconnected to the computer that is paired with the illuminated Bluetooth channel.
- **Slowly blinking white (180 s):** The illuminated Bluetooth channel is in pairing mode.
- **Two white blinks and pauses (180 s):** The keyboard is reconnecting to a previously paired device.
- **NOTE:** To extend battery life, be sure to turn off the keyboard and numpad when not in use.

- **PRINTER:** Replace this box with Printed-in (PI) Statement(s) as per spec.
- **NOTE:** This box is simply a placeholder. PI Statement(s) do not have to fit inside the box but should be placed in this area.
- **WARNING INGESTION HAZARD:** This product contains a button cell or coin battery.
- DEATH or series injury can occur if ingested.
- A swallowed button cell or coin battery can cause Internal Chemical Burns in as little as 2 hours.
- KEEP new and used batteries OUT OF REACH of CHILDREN
- Seek immediate medical attention if a battery is suspected to be swallowed or inserted inside any part of the body.
