hp N20990-001 Unifying Mouse

Product Information

The HP Mouse is a wireless mouse that can be connected to a computer using the HP Unifying Dongle or Bluetooth. It has programmable buttons and a scroll wheel for easy navigation.

- Programmable forward button (1): By default, press to display the next page in your application history.
- Programmable back button (2): By default, press to display the previous page in your application history.
- Programmable right-click button (4)
- Programmable scroll wheel (5)

Product Usage Instructions

To use the HP Mouse:

1. Connect the mouse to a computer using the HP Unifying Dongle or Bluetooth. Up to two computers can be connected via Bluetooth.
2. Press the programmable buttons to navigate through your application history.
3. Use the scroll wheel to scroll up and down in your applications.
4. If you want to program the buttons for different functions,refer to the user manual for instructions on how to do so.

Connect the mouse to one computer using the HP Unifying Dongle and up to two computers via Bluetooth®. Use the HP Accessory Center (HPAC) software to program the mouse buttons, change the DPI setting (1200 DPI by default), and use the dongle with the mouse’s pairing button. If the software does not download automatically, on your computer, open Microsoft Store or App Store. Search for HP Accessory Center, and then download the app.
