Software Solutions User Guide

SUMMARY

The following sections provide details for this topic.

Legal information

Edition 1, December 2024

© 2023-2024 HP Development Company, L.P.

For HP-authorized personnel only.

Legal notices

This document contains proprietary information that is protected by copyright.

All rights are reserved. No part of this document may be photocopied, reproduced, or translated to another language without the prior written consent of HP.

Warranty

The information contained in this document is subject to change without notice. HP makes no warranty of any kind with regard to this material, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose.

HP shall not be liable for errors contained herein or for incidental or consequential damages in connection with the furnishing, performance, or use of this material.

Safety

The procedures described in this manual are to be performed by HP-qualified service personnel only.

The Warning symbol calls attention to a procedure, practice, or the like, which, if not correctly performed or adhered to, could result in personal injury. Do not proceed beyond a Warning symbol until the indicated conditions are fully understood and met.

The Caution symbol calls attention to an operating procedure, practice, or the like, which, if not correctly performed or adhered to, could result in damage to or destruction of part or all of the printer. Do not proceed beyond a Caution symbol until the indicated conditions are fully understood and met.

Readership

The primary readers of this service manual are HP service engineers, although secondary readership may include resellers.

HP Click Driver

Introduction

The HP Click Driver is an advanced, software-driven printer driver designed to optimize print workflows, reduce errors, and improve user experience. By integrating Printer Support App (PSA) functionalities, it simplifies the printing process for users.

Product features and benefits

The following contains information on the topic.

Full Integration with Windows 11

The HP Click Driver seamlessly integrates with Windows 11, aligning with native system print paths to enhance accessibility and ease of use.

HP Click Driver addresses common printing issues that often lead to reprints, offering a dependable, high-quality solution for professionals who need accurate output with minimal intervention.

Efficiency in Print Flow

A streamlined, guided workflow from document selection to final print. This guided workflow includes automatic adjustments and setting retention for quick, repeatable, and high-quality outputs.

Reliability and Error Management

Equipped with advanced error detection and management features, the driver helps users to prevent common printing issues, ensuring that prints are accurate and meet quality expectations.

The HP Click Driver is optimized for customers in small to medium enterprises, particularly in industries such as AEC (Architecture, Engineering, and Construction). The key attributes include:

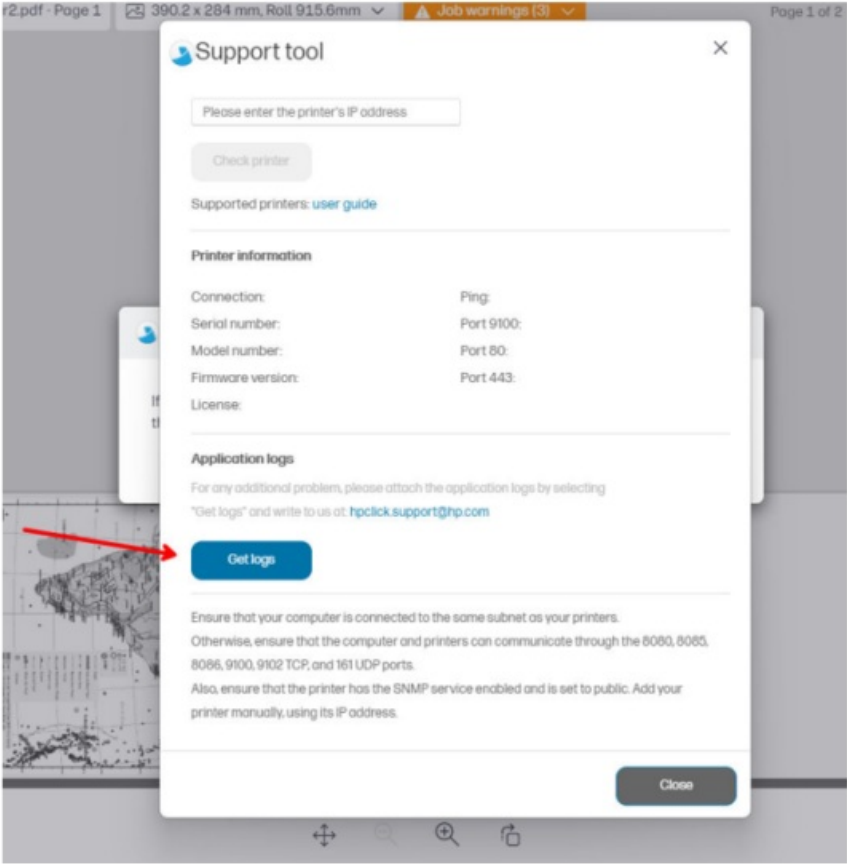

- **Direct Application Printing:** Users can print directly from commonly used applications (Windows) without needing additional software.
- **Compatibility with Natural Workflow:** The driver's integration into the existing Windows print path allows users to work within their familiar digital environment, minimizing disruptions, and improving productivity.

HP Click Driver addresses common printing issues that often lead to reprints, offering a dependable, high-quality solution for professionals who need accurate output with minimal intervention.

Comparison of HP Click Driver and HP Click Application

The following table outlines the distinct capabilities of the HP Click Driver compared to the HP Click Application, highlighting its exclusive features and functionalities for Windows 11 users.
