SO100 Automatic Jar Opener

HSNⁱ

HSNⁱ

Product Information

Specifications

- No OFF Button
- Automatic shut-off feature
- Battery-operated
- Manually operable arms

Product Usage Instructions

Installing Batteries

1. Open the battery compartment on the unit.
2. Insert the required batteries, following the correct polarity.

Operating Steps

1. Place the unit on the lid of the Jar.
2. Press and hold Power Button for the arms to tighten on the lid of the jar and to open the Jar.
3. The unit will open the jar automatically and turn off after the arms return to their outward position.

Manually Operable Arms:

The arms can be manually rotated to their accurate position to restart the opening process.

Note: The unit may operate automatically when moving the arms manually. This is normal.

FAQ

- **Q: What should I do if the arms do not tighten on the lid of the jar?**

A: Make sure the unit is correctly positioned on the jar lid and try pressing the Power Button again to tighten the arms.

- **Q: Can I use rechargeable batteries with this product?**

A: It is recommended to use standard alkaline batteries for optimal performance.

Quick Start Guide

No OFF Button

- Press and hold Power Button for the arms to move forward.
- The unit turns off automatically after the arms return to their outward position.

Install Batteries to Operate

Note: It is normal that the arms may start moving after inserting batteries. They will stop once they reach their outward position.

Operating Steps

1. Place the unit on the lid of the Jar.
2. Press and hold Power Button for the arms to tighten on lid of the jar and to open the Jar.

The unit will open the jar automatically, and turn off after the arms return to their outward position.

Manually Operable Arms

The arms can be manually rotated to their an accurate position to re-start the opening process again.

Note: The unit may operate automatically when moving the arms manually. This is normal.
