## HUAWEI AX3000 WiFi Mesh 3 Whole Home Coverage

Before using the device, review and download the latest Quick Start Guide at

## Getting Started

1. Connect the power adapter to your router, then connect the WAN port of the router to the LAN port of the optical/broadband modem or a wall-mounted network port using a network cable.

2. Connect your mobile phone or computer to the router's Wi-Fi network (no password required). Check for the Wi-Fi name on the bottom of the router.

3. Open the browser, then enter 192.168.3.1 in the address bar. Follow the instructions to set up your router.

4. If the pack you purchased contains more than one router, the other router(s) will set up a network with the first configured router automatically after being connected to the power supply.

## Indicator

- Steady blue  
Connected to the network
- Steady red  
Not connected to the network
- Flashing  
The router has detected a pairable device

## Safety Information

- Please consult your doctor and the device manufacturer to determine if using your device may interfere with the operation of your medical device.
- Avoid using the device in a dusty, damp, or dirty place, or near a magnetic field.
- Ideal temperatures: 0°C to 40°C for operating, -40°C to +70°C for storage.
- When charging, an adapter should be plugged into a socket nearby and easily accessible. Use approved power adapters and chargers.
- Do not touch the device or the charger with wet hands. Doing so may lead to short circuits, malfunctions, or electric shocks.
- For optimal Wi-Fi coverage and performance, it is recommended that the installation distance between multiple mesh routers be greater than 2 m when there is line of sight (LOS) Internet.

## Disposal and recycling information

The symbol on the product, battery, literature, or packaging means that the products and batteries should be taken to separate waste collection points designated by local authorities at the end of the lifespan. This will ensure that EEE waste is recycled and treated in a manner that conserves valuable materials and protects human health and the environment. For more information, please contact your local authorities, retailer, or household waste disposal service or visit the website <https://consumer.huawei.com/en/>.

## RF Exposure Information

This device is not portable radio equipment, it is designed to be used at a distance larger than 20 cm between the user and/or bystander and the antenna and/or radiating element of the device.

## Version Update

In order to improve the security of the product and provide you with a better user experience, we will push version update information to you on a regular basis when an important update is released.

## End-User License Agreement

Please read and agree to the End User License Agreement (HUAWEI EULA) on the product's management page before using the product.
