## Hydrapak 834456002628 Ultra Flask Speed 600ml Instruction Manual

### CUSTOMIZABLE HYDRATION

Choose between two cap options.

Directly mount your bite valve onto the cap or insert the adjustable drink tube to create a straw cap (can be cut to any length)

### GEL NOZZLE CAP

New wide opening silicone bite nozzle is designed to dispense gels and liquids with a variety of consistencies. Makes fueling more convenient, less wasteful and less sticky

## **VEST PACK FIT**

Soft material conforms to most hydration vests, belts or pack pockets, makes a great addition or replacement running flask

## **ULTRA FEATURES**

**SPEEDFILL CAP** Designed for fast filling on race day and beyond, tab pops open the cap in one motion – snaps shut after refilling with a click

## **HIGH FLOW BITE VALVE**

Self-sealing, soft bite valve features a high grade silicone sheath for enhanced flow

## **ADJUSTABLE HANDSTRAP**

The ideal hand-held solution for running, adjustable strap cinches down to fit different hand sizes.

## **ISOBOUND INSULATION**

Prevents heat transfer from the user to the flask contents, it's the ideal solution for a wide range of outdoor activities

## **COMPRESSIBLE**

Flexible design shrinks as you drink, reducing water movement and minimizes space in a pack or vest
