## Hydrapak Flux Plus Smooth Flow Twist Cap

## Product Information

## **Specifications:**

- Product: Water Bottles
- Model: FLUXTM+ 1.5L
- Capacity: 1.5 liters
- Filter Type: Integrated filter (42mm)
- Filter Capacity: Removes bacteria and protozoa from approximately 1,500 liters of water
- Flow Rate: >1 liter per minute
- Bottle Construction: Dual layer film
- Bottle Shape: Slender
- Handle Type: Flexible bail handle

## **Technology:**

The FLUXTM+ 1.5L Water Bottle incorporates advanced technology to provide fast and safe filtration, making it suitable for outdoor activities and everyday use.

## **Easy to Carry:**

The flexible bail handle allows for comfortable carrying, quick attachment, and filling in a lake or river. It is designed to be lightweight and durable.

## **Fast & Safe Filtration:**

The integrated filter with a diameter of 42mm removes bacteria and protozoa from approximately 1,500 liters of water. The filtration rate is more than 1 liter per minute, ensuring a quick supply of clean drinking water.

## **Dual Layer Film Construction:**

The FLUXTM+ 1.5L Water Bottle features a new molded hard top and dual layer walls. The hard top enables the bottle to stand upright, while the RF-welded soft walls provide a flexible grip. This construction ensures durability and stability.

## **Pocket Sized & Flexible Bottle Designs:**

The bottle is designed to be pocket-sized, fitting easily in your backpack or most cup holders. Its lightweight, flexible, and minimal design allows you to roll or twist the bottle down for space-saving storage in your pack.

## **Smooth Flow Twist Cap:**

The twist cap of the FLUXTM+ 1.5L Water Bottle provides a smooth drink-through experience. To open the bottle, align the colored indicator on the cap with the matching colored indicator on the bottle. To close the bottle and create a leak-proof seal, twist the cap half rotation clockwise until tight.

## **Product Usage Instructions**

### **To Drink:**

1. Align the colored indicator on the cap with the matching colored indicator on the bottle.
2. Hold the bottle upright and bring it to your mouth.
3. Drink from the bottle, enjoying a smooth flow of filtered water.

### **To Close:**

1. Twist the cap half rotation clockwise until tight.

2. Ensure that the cap is securely closed to prevent any leakage.

**Note:** Always make sure the cap is tightly closed before storing or transporting the bottle.

### Frequently Asked Questions (FAQ)

**Q: What is the capacity of the FLUX™+ 1.5L Water Bottle?**

**A:** The capacity of the FLUX™+ 1.5L Water Bottle is 1.5 liters.

**Q: How many liters of water can the integrated filter remove?**

**A:** The integrated filter can remove bacteria and protozoa from approximately 1,500 liters of water.

**Q: Can the FLUX™+ 1.5L Water Bottle fit in most cup holders?**

**A:** Yes, the slender bottle shape of the FLUX™+ 1.5L Water Bottle is designed to fit in most cup holders.

**Q: Is the FLUX™+ 1.5L Water Bottle suitable for everyday use?**

**A:** Yes, the FLUX™+ 1.5L Water Bottle is versatile enough for everyday use due to its compact design and easy-to-use features.

### WATER BOTTLES

### TECHNOLOGY

## FLEXIBLE BOTTLE DESIGNS

### COMPRESSIBLE

Lightweight, flexible and minimal designs allow you to roll or twist bottles down for space saving storage in your pack.

### SMOOTH FLOW TWIST CAP

180° turn delivers the perfect flow rate for a glasslike drinking experience, twist back to close for leakproof transport

### TO DRINK

Align the colored indicator on the cap with matching colored indicator on the bottle for a smooth drink-through experience.

### TO CLOSE

Twist cap half rotation clockwise until tight, creating a leak-proof seal

### RECON® BOTTLES MADE FROM 50% RECYCLED CONTENT

Recycled content is achieved through allocation of a third-party recycled plastic using a mass balance method

### SLENDER BOTTLE SHAPE

Designed to fit in your backpack pocket, but versatile enough for everyday use – fits in most cup holders.!
