HyperX PBT Mechanical Keycap Set

HyperX Pudding Keycaps 2 and Keycap Removal Tool

Product Overview

- **A.** HyperX Pudding Keycaps 2
- The image depicts a full set of HyperX Pudding Keycaps 2, which are dual-layer keycaps designed to enhance the RGB lighting on mechanical keyboards. The keycaps have a translucent lower part that allows light to pass through more effectively, thus creating a brighter and more vibrant effect.

- **B. Keycap Removal Tool**
- The keycap removal tool shown in the image is a device used to safely and easily remove keycaps from mechanical keyboards without damaging the keys or the keyboard itself. It has a simple, two-pronged design that grips the keycap and allows for gentle removal.

FAQ

- **Q:** What are the HyperX Pudding Keycaps 2 made of?
- **A:** They are made with a dual-layer design featuring a translucent lower part for better RGB lighting effects.
- **Q:** How do I remove my old keycaps?
- **A:** Use the provided keycap removal tool. Gently insert the two prongs under the keycap and apply an even upward pressure to detach the keycap from the switch.
- **Q:** Are the HyperX Pudding Keycaps 2 compatible with all keyboards?
- **A:** They are designed for mechanical keyboards with RGB lighting. Compatibility may vary, so please check with HyperX support if unsure.
- **Q:** How can I get support for my HyperX products?
- **A:** Support is available at hyperx.com/support – HyperX ROW.
