FAQ

- **Q: Keyboard stop working/ fail to connect.**
  1. Charge the keyboard for 2 hours.
  2. Verify the product is connected directly to the computer and not to a Bluetooth adapter
  3. Make sure that your iClever device and computer are within close proximity of each other.
  4. Try moving away at least 8 inches (20 cm) from metal and other sources of wireless signal.
  5. Delete all the Bluetooth connection records. (For examgle for iPad click "Settings" > "Bluetooth" > under "MY DEVICE" to delete all the Bluetooth connection records\
  6. On your device, turn off the Bluetooth and turn it on again to Refresh. (For examgle for iPad click "Settings" > "Bluetooth" > if the on-screen switch beside Bluetooth currently shows as ON tag it twice to refresh it}
  7. Connect it again.
- **Q: Delay when typing.**

  The most common cause of typing lag are lack of memory, signal interference and low battery. Please try as below to check:
  1. Restart your Bluetooth device.
  2. Charge the keyboard for 2 hours.
  3. Make sure that your iClever device and computer are within close proximity of each other .
  4. Try moving away at least 8 inches from:
     - Any device that could emit wireless waves: Microwave, cordless phone, baby monitor, wireless speaker, garage door opener, WiFi router
     - Computer power supplies, Metal or metal wiring in the wall
  5. Do not use your wireless keyboard on metal surfaces.
  6. Check if there are any updates running in the background.
  7. Check your computer memory, insufficient memory may cause the delay.
  8. Try on a different APP/device to connect or email us.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Contact
The product comes with a 12-month warranty, if you have any questions, please feel free to contact us by **support@iclever.com** .
