Safety Information

Federal Communications Commission (FCC) Statement. ThisThe
device complies with Part 15 of the FCC Rules. Operation is
subject to the following two conditions: (1) this device may
not cause harmful interference, and (2) this device must
accept any interference received, including interference that
may cause undesired operation.
This equipment has been tested and found to comply with
The limits for a Class B digital device, under part 15 of
The FCC Rules. These limits are designed to provide reasonable
protection against harmful interference in a residential
installation. This equipment generates, uses, and can radiate
radio frequency energy and, if not installed and used in
Accordance with the instruction manual may cause harmful
interference with radio communications.
However, there is no guarantee that interference will not
occur in a particular installation. If this equipment does
cause harmful interference to radio or television reception,
which can be determined by turning the equipment o and on,
The user is encouraged to try to correct the interference by one
or more of the following measures:

 Reorient or relocate the receiving antenna.
 Increase the separation between the equipment and receiver.
 Connect the equipment into an outlet on a circuit dierent from
that to which the receiver is connected.
 Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by
the party responsible for compliance could void the authority
to operate equipment. This device and its antenna must not be

co-located or operating in conjunction with any other antenna or transmitter. For products available in the USA/Canada market, only channels 1~11 can be operated. Selection of other channels is not possible.

Caution

Be careful not to pinch your fingers when moving the arm.
Do not hold the arm or camera head when carrying the product.
Avoid any impact on the camera head.
