 - Pairing mode for easy connection with devices
 - GAIA client for connecting to the GAIA app for personalized sound settings and firmware updates
 - Ver1.4 firmware version
-

Product Usage Instructions

Set-Up

1. Scan the QR code on the user manual for a set-up video.
2. Charge the earbuds and the charging case using the USB-C cable.

Pairing

1. Make sure the earbuds are turned off.
2. Press and hold the left and right touch control areas together for 2 seconds to enter pairing mode (LED status will show “pairing”).
3. In your device’s Bluetooth settings, connect to “Go pod” to pair with the earbuds.

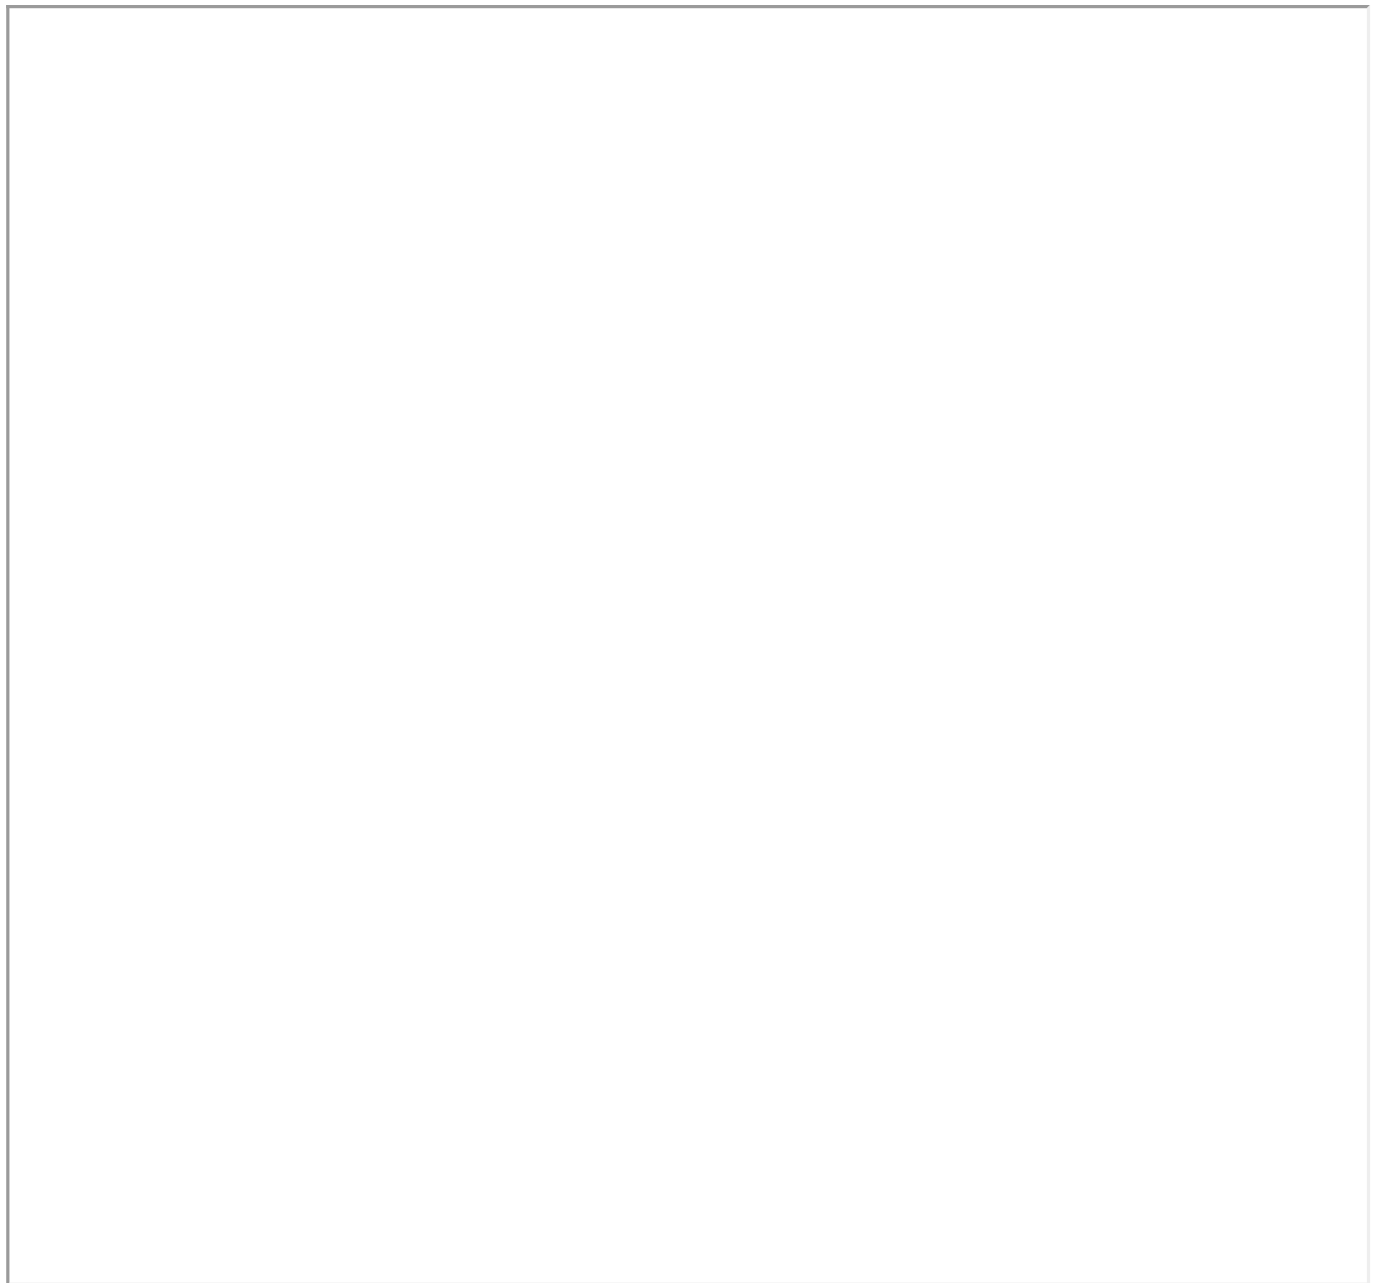

Touch Control

- Single tap on either earbud to play/pause music or answer/end calls.
- Double tap on the right earbud to skip forward to the next track.
- Triple tap on the right earbud to skip back to the previous track.
- Long press (2 seconds) on either earbud to wake up your device’s voice assistant.

GAIA App Connection

1. Download and install the GAIA app on your device.
2. Make sure the earbuds are turned off.
3. Press and hold the left and right touch control areas together for 15 seconds to connect to the GAIA app (LED status will show “GAIA”).
4. Open the GAIA app and follow the instructions to connect to the earbuds.
