Reduce TCO

Cost savings at each endpoint are multiplied across the entire IT infrastructure. IGEL OS:

- Eliminates costly endpoint security and management agents
- Makes endpoints 22% more energy eff icient increasing WOW eff iciency
- Extends the refresh cycle for endpoints

Industry Impact

"Healthcare is under att ack. Every single day. We're seeing news stories all the time about the healthcare system being aff ected by ransomware. Being able to standardize, streamline, protect, and rapidly and agilely deliver data wherever, whenever, was critical for us, and we have seen a tremendous uptick in value from a clinical perspective in selecting IGEL." Aaron Miri,

Executive Vice President and Chief Digital Information Off icer, Baptist Health

IGEL Ready partners include:

Rapid Endpoint Recovery

IGEL for Business Continuity enables compromised Windows endpoints to be clean booted to IGEL OS in minutes. Utilizing the same in place hardware, IGEL OS can be booted enabling employees to connect to online services such as Off ice 365, Teams and Zoom to resume communications and connect to recovered services as they become available. With Business Continuity Specialist services included, organizations can minimize the cost of an outage and keep business moving even in the face of a signifi cant disruption

Sustainability

- Positively impact your Environmental, social and corporate governance (ESG) goals:

- Repurpose existing endpoints reducing your e-waste
- Use energy eff icient endpoints realizing 22+% endpoint power savings
- Support hybrid working to reduce commuter emissions
