IKEA Recalls KULLEN 3 Drawer Chest Due to Tip-Over/ Entrapment Hazards

Article numbers

501.637.54 / 803.221.34

**Article number****600.930.58**

IKEA is voluntarily recalling KULLEN 3 drawer chest in birch and black/brown. The chest is unstable if it is not anchored to the wall, posing tip over and entrapment hazards.

Customers that have a KULLEN 3 drawer chest, that is not properly anchored to the wall, are urged to stop using it and place it in an area that children cannot access. If you have a recalled chest, please contact IKEA for a choice between two options: a refund or a free wall-attachment kit. Customers can order a free wall-attachment repair kit for self-installation or IKEA will provide a one-time, free in-home installation service. IKEA will accept in-store returns or arrange for a free pick up of the chests for a refund. Proof of purchase (receipt) is not required. To participate in the recall, please click [here](#).

The recalled KULLEN 3 chests were manufactured and sold from April 2005 – December 2019. The chests imported after August 12, 2019 do not comply with the updated U.S. consensus standard.

We apologize for any inconvenience and want to thank all customers for their understanding. For more information, please contact us at 888-966-4532.

Retail price: \$59.99
