**IKEA LAGAN Oven**

## Product Information

The product is called LAGAN and is manufactured by Ikea of Sweden. It is a kitchen appliance, specifically an oven. The product is available in multiple languages including English, German, French, Norwegian, Finnish, Swedish, Portuguese, Spanish, and Dutch. It is designed with a focus on quality.

## Product Usage Instructions

1. To ensure safety, only use a fuse that matches the current ratings indicated on the product.
2. Before installation, carefully inspect the product for any damage. If it is damaged, do not install it.
3. If your oven has decorative doors, make sure to install it behind those doors.
4. When cleaning the oven front door glass or upper door glass (if present), avoid using wool or bleach materials as they can scratch and break the glass surfaces.
5. For environmental instructions and waste regulation compliance, refer to the full version of the User Manual available at [www.ikea.com](http://www.ikea.com).
6. To save energy while cooking, place two cooking containers on the wire shelf and cook meals consecutively to prevent heat loss.
7. For detailed cleaning information for different surfaces of the product, refer to the Care and Cleaning section in the full version of the User Manual available at [www.ikea.com](http://www.ikea.com).
8. If you need to remove the oven door, follow the provided instructions in the full version of the User Manual available at [www.ikea.com](http://www.ikea.com).

Note: This response only includes relevant information and instructions from the user manual extract. For complete product information and instructions, please refer to the full version of the User Manual available at [www.ikea.com](http://www.ikea.com).

## Product Dimensions

## Safety information

- This section contains safety instructions that will help prevent any risks of personal injuries or material damage.
- If the product is transferred to another person or used second hand, the operating manual, product labels, other relevant documents and accessories should be delivered with the product.
- Our company shall not be held responsible for any damage that may occur as a result of failure to comply with these instructions.
- Failure to comply with these instructions shall render any warranty void.
- Always have the installation and repair work performed by the manufacturer, the authorized service or a person specified by the importer.
- Use genuine spare parts and accessories only.
- Do not attempt to repair or replace any part of the product unless it is clearly specified in the operating manual.
- Do not perform technical modifications on the product.

## Purpose of usage

- This product is designed for home use. It is not suitable for commercial use.
- Do not use the product in gardens, balconies or other outdoor environments. The appliance is intended to be used in household and staff kitchen areas in shops, offices and other working environments.
- **WARNING:** This product should be used for cooking purposes only. It should not be used for different purposes, such as heating the room.
- The oven can be used to defrost, bake, fry and grill food.
- This product; should not be used for heating, plate heating, hanging towels or clothes on the handle for drying.

### **Child, vulnerable person and pet safety**

- This product can be used by children 8 years of age and older, and people who are underdeveloped in physical, sensory or mental skills, or lack of experience and knowledge, as long as they are supervised or trained about the safe use and hazards of the product.
- Children should not play with the product. Cleaning and user maintenance should not be performed by children unless there is someone overseeing them.
- This product should not be used by people with limited physical, sensory or mental capacity (including children), unless they are kept under supervision or receive the necessary instructions.
- Children should be supervised to ensure that they do not play with the product.
- Electrical products are dangerous for children and pets. Children and pets must not play with, climb on, or enter the product.
- Do not put objects that children may reach on the product.
- **WARNING:** During use, the accessible surfaces of the product are hot. Keep children away from the product.
- Keep the packaging materials out of the reach of children. There is a hazard of injury and suffocation.
- When the door is open, do not put any heavy objects on it or allow children to sit on it. You may cause the oven to tip over or damage the door hinges.
- (Not all products are supplied with a plug, so if your product DOES have a plug) For the safety of children, disconnect the power plug and make the product inoperable before disposing of the product.

### **Electrical safety**

- Connect the product into a grounded outlet protected by a fuse that matches the current ratings indicated on the type label. Have the grounding installation made by a qualified electrician. Do not use the product without grounding in accordance with local / national regulations.
- The plug or the electrical connection of the product should be in an easily accessible place (where it will not be affected by the flame of the stove). If this is not possible, there should be a mechanism (fuse, switch, switch, etc.) on the electrical installation to which the product is connected, in compliance with the electrical regulations and separating all poles from the network.
- The product must not be connected into the outlet during installation, repair, and transportation.
- Connect the product into an outlet that meets the voltage and frequency values specified on the type label.
- (Not all products are supplied with a supply cord, so if your product DOES NOT have a supply cord) Use only the connecting cable specified in the “Technical specifications” section.
- Do not jam the power cord under and behind the product. Do not put a heavy object on the power cord. The power cord should not be bent, crushed, and come into contact with any heat source.
- While the oven is operating, its back surface also gets hot. Power cords must not touch the back surface,

connections may be damaged.

- Do not jam the electric cables into the oven door and pass them over hot surfaces. You may cause the oven to short circuit and catch fire as a result of the cable melting.
- Use original cable only. Do not use cut or damaged cables or extension leads.
- If the power cord is damaged, it must be replaced by a manufacturer, an authorized service or a person to be specified by the importer company in order to prevent possible dangers.
- **WARNING:** Before replacing the oven lamp, be sure to disconnect the product from the mains supply to avoid the risk of electric shock. Switch off the product or turn off the fuse from the fuse box.

**(Not all products are supplied with a plug, so if your product DOES have a plug)**

- Do not plug the product into an outlet that is loose, has come out of its socket, is broken, dirty, oily, with risk of water contact (for example, water that may leak from the counter).
- Never touch the plug with wet hands! To unplug, do not hold the cord, always hold the plug.
- Make sure that the product plug is securely plugged into the outlet to avoid arcing.

### **Transportation safety**

- Disconnect the product from the mains before transporting the product.
- The product is heavy, carry the product with at least two people.
- Do not use the door and / or handle to transport or move the product.
- Do not put other items on the product and carry the product upright.
- When you need to transport the product, wrap it with bubble wrap packaging material or thick cardboard and tape it tightly. Secure the product tightly with tape to prevent the removable or moving parts of the product and the product from damage.
- Check the overall appearance of the product for any damage that may have occurred during transportation.

### **Installation safety**

- Before the product is installed, check the product for any damage. If the product is damaged, do not install it.
- Do not install the product near heat sources (radiators, stoves, etc.).
- Keep all ventilation ducts open around the product.
- To prevent overheating, the product should not be installed behind decorative doors.

### **Safety of use**

- Make sure that the product is turned off after each use.
- If you do not use the product for a long time, disconnect it or turn off the fuse from the fuse box.
- Do not operate defective or damaged product. If any, disconnect the electricity / gas connections of the product and call the authorized service.
- Do not use the product with the front door glass removed or broken.
- Do not climb on the product to reach anything or for any other reason.
- Do not use the product in situations that may affect your judgment, such as drug intake and / or alcohol use.
- Flammable objects kept in the cooking area may catch fire. Never store flammable objects in the cooking area.
- The oven handle is not a towel dryer. When using the product, do not hang towels, gloves or similar textiles.
- The hinges of the product door move and tighten when opening and closing the door. When opening / closing

the door, do not hold the part with the hinges.

## **Temperature warnings**

- **WARNING:** While the product is operating, exposed parts will be hot. Do not touch the product and heating elements. Children under the age of 8 should not be brought close to the product without an adult.
- Do not place flammable / explosive materials near the product, as the edges will be hot while it is operating.
- As steam may be exhaled, keep away while opening the oven door. The steam may burn your hand, face and / or eyes.
- The product may be hot during use. Do not touch the hot compartments, the interior parts of the oven, the heating elements, etc.
- When placing food in the hot oven, removing the food, etc. always use heat resistant oven gloves.

## **Accessory use**

- It is important that the wire grill and tray are placed properly on the wire shelves. For detailed information, refer to the section "Usage of accessories".
- Accessories can damage the door glass when closing the product door. Always push the accessories to the end of the cooking area.

## **Cooking safety**

- Be careful when using alcohol in your food. Alcohol evaporates at high temperatures and may catch fire when exposed to hot surfaces, causing a fire.
- Food waste, oil, etc. in the cooking area may catch fire. Before cooking, remove such coarse dirt.
- Food Poisoning Hazard: Do not keep food in the oven for more than an hour before and after cooking. Otherwise it may cause food poisoning or diseases.
- Do not heat closed tin cans and glass jars. Built up pressure may cause the jar to burst.
- Place the greaseproof paper in a cookware or on the oven accessory (tray, wire grill, etc.) with food and place it in the preheated oven. Remove any excessive pieces of greaseproof paper hanging from the accessory or container to avoid the risk of touching the oven heating elements. Never use greaseproof paper at an oven temperature higher than the maximum use temperature specified on the greaseproof paper you are using. Never place greaseproof paper on the oven base.
- Do not place baking trays, plates or aluminum foil directly on the bottom of the oven. The accumulated heat can damage the base of the oven.
- Close the oven door during grilling. Hot surfaces may cause burns!
- Food not suitable for grilling carries a fire hazard. Grill only food that is suitable for heavy grill fire. Also, do not place the food too far in the back of the grill. This is the hottest area and fatty foods may catch fire.

## **Maintenance and cleaning safety**

- Wait for the product to cool before cleaning the product. Hot surfaces may cause burns!
- Never wash the product by spraying or pouring water on it! There is an electric shock hazard!
- Do not clean the product with steam cleaners as this may cause electric shock.

- Do not use harsh abrasive cleaners, metal scrapers, wire wool or bleach materials to clean the oven front door glass /(if present) oven upper door glass. These materials can cause glass surfaces to be scratched and broken.

## Environmental Instructions

### Waste regulation

#### Compliance with the WEEE Directive and Disposing of the Waste Product

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE).

This product has been manufactured with high quality parts and materials which can be reused and are suitable for recycling. Do not dispose of the waste product with normal domestic and other wastes at the end of its service life. Take it to the collection center for the recycling of electrical and electronic equipment. Please consult your local authorities to learn about these collection centers.

Appropriate disposal of used appliances helps prevent potential negative consequences for the environment and human health. To download the full version visit [www.ikea.com](http://www.ikea.com)

#### Compliance with RoHS Directive:

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

## Package information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

### Recommendations for energy saving

Information on energy efficiency according to EU 66/2014 can be found on the product fiche given with the product. The following suggestions will help you use your product in an ecological and energy-efficient way:

- Defrost frozen food before cooking.
- In the oven, use dark or enamelled containers that transmit heat better.
- Turn off the product 5 to 10 minutes before the end time of cooking for prolonged cooking. Now you can save up to 20% electricity by using heat.
- If specified in the recipe or user manual, always preheat. Do not open the oven door frequently during cooking.
- Try to cook more than one dish at a time in the oven. You can cook at the same time by placing two cooking containers on the wire shelf. In addition, if you cook your meals one after the other, it will save energy because the oven will not lose its heat.

## Care and Cleaning

For detailed cleaning information for the different surfaces of your product, see the “Care and cleaning” section in the full version of the User Manual available at [www.ikea.com](http://www.ikea.com).

## General warnings

- Wait for the product to cool before cleaning the product. Hot surfaces may cause burns!
- Do not apply the detergents directly on the hot surfaces. This may cause a permanent stains.
- The appliance shall be thoroughly cleaned and dried after each operation. Thus, food residues shall be easily cleaned and these residues shall be prevented from burning when the appliance is used again later. Thus, the service life of the appliance extends and frequently faced problems are decreased.
- Do not use steam cleaning products for cleaning.
- Some detergents or cleaning agents may damage the surface. Do not use abrasive detergents, cleaning powders, cleaning creams, descalers or sharp objects during cleaning.
- There is no need for a special cleaning agent for cleaning after each use. Clean the appliance using dish soap, warm water and a soft cloth or sponge and dry with a dry microfiber cloth.
- Be sure to completely wipe off any remaining liquid after cleaning and immediately clean any food splashing around during cooking.
- Do not wash any component of your appliance in a dishwasher.

## Removing the oven door

To reattach the door, the procedures applied when removing it must be repeated from the end to the beginning, respectively. When installing the door, be sure to close the clips on the hinge socket.

1	Open the oven door.	
2	Open the clips in the front door hinge socket on the right and left by pressing downwards as shown in the figure .	
3	Get the oven door to a half-open position.	
4	Pull the removed door upwards to release it from the right and left hinges and remove it.	

## Removing the inner glass of the oven door

1	Open the oven door.	
2	Pull the plastic component, attached on the upper section of the front door, towards yourself by simultaneously pressing on the pressure points on both sides of the component and remove it.	
3	As shown in the figure, gently lift the innermost glass (1) towards 'A' and then, remove it by pulling towards 'B'.	
4	If your product has an inner glass (2), repeat the same process to detach it (2).	
5	The first step of regrouping the door is to reassemble the inner glass (2). Place the beveled edge of the glass to meet the beveled edge of the plastic slot. (If your product has an inner glass). Inner glass (2) must be attached to the plastic slot closest to the innermost glass (1).	
6	While reassembling the innermost glass (1), pay attention to place the printed side of the glass on the inner glass. It is crucial to place the lower corners of the innermost glass (1) to meet the lower plastic slots.	
7	Push the plastic component towards the frame until a "click" sound is heard.	

## Replacing the oven lamp

### General warnings

- To avoid the risk of electric shock before replacing the oven lamp, disconnect the electrical connector and wait for the oven to cool. Hot surfaces may cause burns!
- In this oven, an incandescent lamp with a power of less than 40 W, a height of less than 60 mm, a diameter of less than 30 mm or a halogen lamp with socket type G9, a power of less than 60 W is used. The lamps are suitable for operation at temperatures above 300 °C. Oven lamps can be obtained from Authorised Service Agents or technician with licence.
- The position of the lamp may differ from that is shown in the figure.
- The lamp used in this product is not suitable for use in the lighting of home rooms. The purpose of this lamp is to help the user see food products.
- The lamps used in this product must withstand extreme physical conditions such as temperatures above 50 °C.

1	Disconnect the product from the electricity.	
2	Remove the glass cover by turning it counterclockwise.	
3	If your oven lamp is type (A) shown in the figure below, rotate the oven lamp as shown in the figure and replace it with a new one. If type (B) is a model, pull it out as shown in the figure and replace it with a new one.	
4	Refit the glass cover.	

## IKEA guarantee

### Do you need extra help?
