IKEA OMAR Storage system

**Care instructions**

Wipe clean with a soft cloth dampened in water and a mild washing-up detergent or soap, if necessary. Wipe dry with a clean cloth.

Environment

The material in this product may be recyclable. Please check the recycling rules in your community and if recycling facilities exist in your area.

Material

Galvanised steel is a recyclable material with a protective layer of zinc which makes the surface durable, hard-wearing and means that it's very low maintenance.

Safety

This furniture must be fixed to the wall. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home, sold separately.

Good to know

Only for indoor use. Can also be used in bathrooms and other damp areas indoors.

Simple to build and easy to personalize

In the spacious OMAR storage system, there's plenty of room for both small and big items. Start by thinking about what you want to store. Then combine shelf sections, shelving units and bottle shelves the way that suits your space best. You can build upwards and to the sides – without tools. For small items, there are practical clip-on baskets and a cover that makes the wire shelf flat.

All the products (shown here) may not be available at the store. Please contact the staff or look at www.IKEA.ph for more information. For more detailed product information, see the price tag and the Internet. All units require assembly.

Combinations

OMAR shelving unit, galvanised.
