Smart Pro Lite Vehicle Key Programmer

Specifications

- Product Name: Smart Pro Lite Key Programmer
- Hardware Platform: Same as the original Smart Pro
- Operational Requirements: Ilco Transponder Keys and IlcoLook-Alike Remotes
- Updates: Free updates for one year, annual update fee required thereafter
- Functionality: Program transponder keys, proximity fobs, and remotes for cars
- Languages: Supports multiple languages
- Compliance: FCC, IC mark standards

How to Use Smart Pro Lite

1. Scan the QR Code on the packaging for Ilco transponder key or Look-Alike Remote using MYKEYS Pro (MKP) app.
2. Convert the QR Code into Smart Pro Lite token through MKP.
3. Load tokens into Smart Pro Lite via My Smart Pro icon on the device or by connecting to a PC with USB cable.
4. Select the make, model, and year of the desired vehicle to start using the device.

Functionality Overview

The Smart Pro Lite allows the programming of transponder keys, proximity fobs, remotes for cars, including PIN reading. It offers functions like ECU identification, fault code reading, previously programmed vehicles, and more.

Updating Procedure

Update the device via WiFi with step-by-step instructions on the home screen. Connect to a PC for software or security patch downloads. Updates are streamlined for faster functionality.

FAQ

Q: What keys and remotes are required for Smart Pro Lite?

A: Ilco Transponder Keys and Ilco Look-Alike Remotes are needed to operate Smart Pro Lite.

The smarter choice...

Based on the same hardware platform as the original Smart Pro, the Smart Pro Lite is a simplified programming device that operates without the need to purchase tokens, software, or standard UTP (Subscription). To operate the Smart Pro Lite, customers will be required to use Ilco Transponder Keys and Ilco Look-Alike Remotes.

The application list for the Smart Pro Lite is based around vehicles that are supported by Ilco Transponder Keys, and Look-Alike Remotes. Comes with free updates for one year! At the end of one year, the Smart Pro Lite will require a very affordable annual update fee to receive any new vehicle application updates.

To use the Smart Pro Lite customers will scan the QR Code printed on the bags for Ilco Transponder Keys and Look-Alike Remotes using the MYKEYS Pro (MKP) app. Once scanned MKP will guide users through the process of moving their QR Code credit to the Smart Pro Lite.

Same Feel, New Features

The Smart Pro Lite Key Programmer is similar to the Smart Pro in body style, but the Smart Pro Lite allows you to be able to utilize your device with Ilco Transponder Keys as well as Ilco Look-Alike Remotes! Be sure to register for MYKEYS Pro at mykeyspro.com before downloading the application.

Key Benefits

- WiFi and Bluetooth connectivity
- Operates without the need to purchase Tokens, Software, or Standard UTP
- Free updates for one year
- Free to receive any new vehicle application updates
- Intuitive touch screen user interface

- Affordable update fee
- Fast programming
- Compatible with MyKeysPro (MKP)
- 2-year warranty
- Compatible with the ADC245 Smart Aerial Plus+

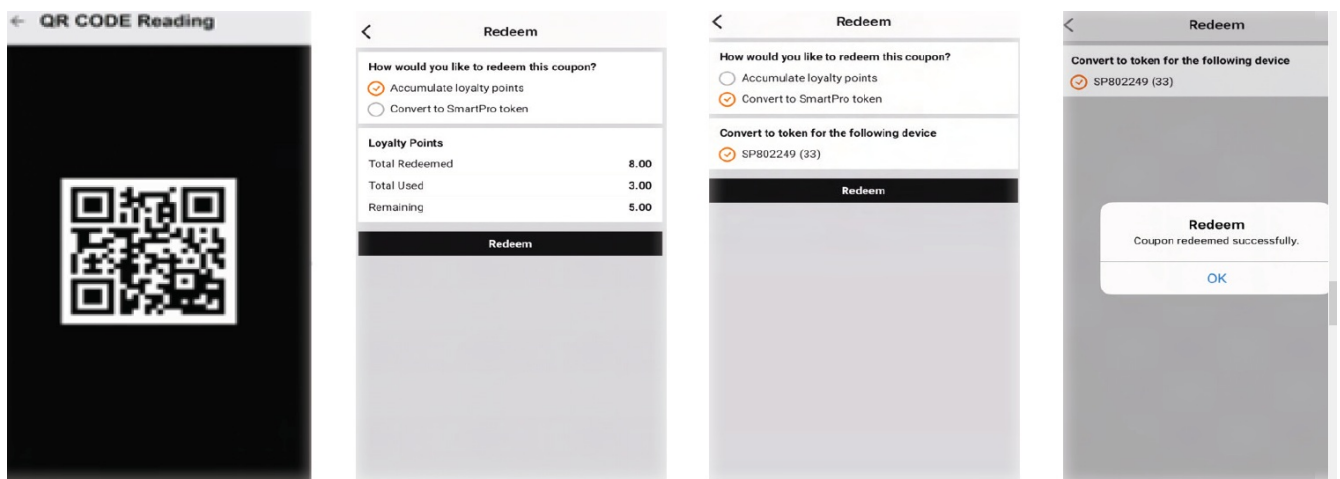

Starter Kit Includes

- OBD Master Cable
- Main Cable and Charger
- USB Operating Manual
- Hard Body Carry Case

How it Works

1. Users scan the QR Code on the packaging for the appropriate Ilco transponder key or Look-Alike Remote using MYKEYS Pro (MKP).
2. Inside MKP the customer will be given the option to convert QR Code into Smart Pro Lite token or convert QR Code for Ilco Loyalty Program. Once customer selects to convert into Smart Pro Lite token the token will be added to the bank of the Smart Pro Lite serial number.

3. The tokens can then be loaded into the Smart Pro Lite by going to the My Smart Pro icon on the device and adding tokens from the bank. This can also be done by connecting the Smart Pro Lite to a PC with supplied USB cable and then connecting to AD Loader to download tokens.

- ## Extensive Functionality

Supports multiple languages; simply select and set.

The Smart Pro Lite can also be connected to a PC with the supplied USB cable to download any new software or security patches. The time for updating has been streamlined to provide faster functionality.
