Imaging Solutions Fast Frame 600 SA Industrial High Speed Multi Format Stretching of Canvas Prints

Product Information

fastFrame 600 SA is a fully automated multi-format system for industrial high-speed stretching of canvases. It is designed for mass production and can mount up to 163 canvases per hour, depending on the size and operator skills.

The machine eliminates the need for format plates and allows for seamless production without time loss for change-over.

Highlights

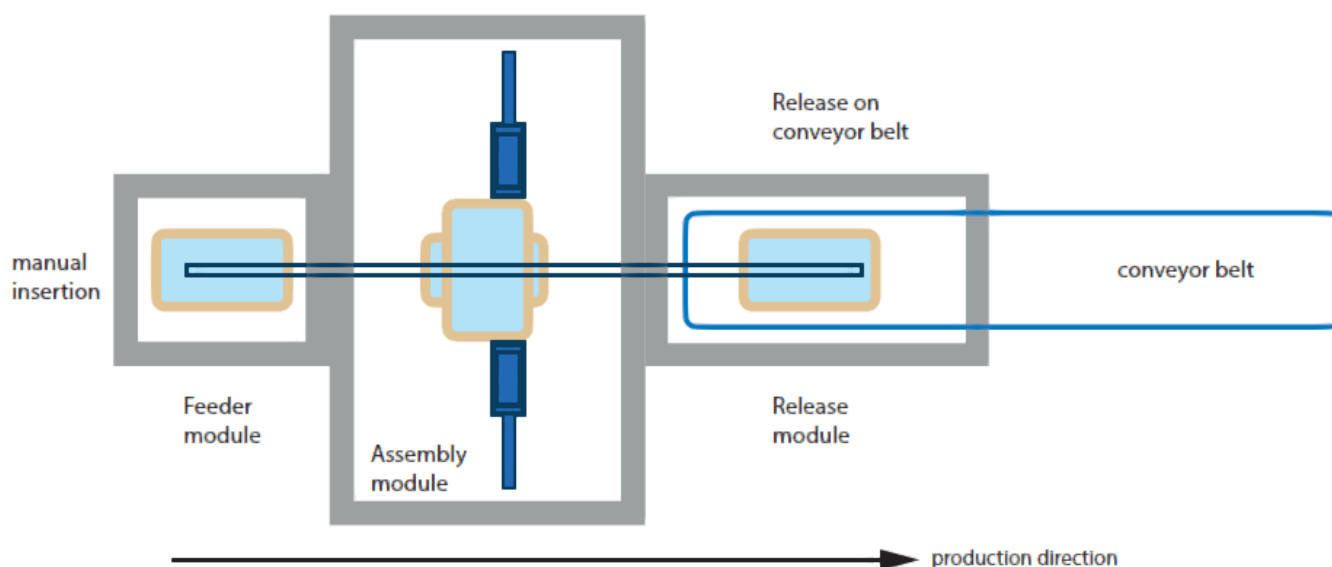

- Multi-format production with automatically adjustable frame intake
- High-speed manufacturing – up to 163 frames/hour
- Developed for industrial production – 24/7 operation
- Designed for the mass production of frame sizes ranging from 200 x 200 mm to 610 x 610 mm
- Interface for automatic loading – frames and canvases can be loaded by robots
- Simple operation
- Quick and cost-effective production without batching
- Barcode reader for automated product selection

Technical Specifications

Dimensions	3,909 (L) x 1,962 (W) x 2,172 (H) mm / 153.9 (L) x 77.2 (W) x 85.5 (H) inches
Weight	1,800 kg / 3,970 lbs
Electricity	400 V, 50/60 Hz, 3 phases, 3x25A transformer available (optional)
Pneumatics	Compressed air, 0.55 – 0.7 MPa
Frame Formats	200 x 200 mm to 610 x 610 mm / 8 x 8 to 24 x 24 inches
Panel Width	Minimum 28 mm / 1.1 inches
Performance	Up to 163 frames per hour (depending on frame size and operator)

Instruction

fastFrame 600 SA by Imaging Solutions AG

fastFrame 600 SA is a fully automated multi-format system for industrial high-speed stretching of canvases. It mounts up to 163 canvases per hour, depending on the size and operator skills. This is way faster than manual production.

There is no need for format plates anymore. The machine processes different formats (length / width) one after another without time loss for change-over. This significantly lowers the production cost since no batching and format plate change-over is required.

The operator only loads canvas and frame into the machine and presses Start. All following worksteps are carried out automatically.

Highlights of the fastFrame 600 SA

- Multi-format production with automatically adjustable frame intake
- High-Speed manufacturing – up to 163 frames / h Developed for industrial production – 24/7
- Designed for the mass production of the most requested frame sizes: 200 x 200 mm to 610 x 610 mm
- Interface for automatic loading
loading of frames and canvases could be done by robots

- Simple operation
- Quick and cost-effective production without batching
- Barcode reader for automated product selection

Technical Data

- **Dimensions** 3'909 (L) x 1'962 (W) x 2'172 (H) mm / 153.9" (L) x 77.2" (W) x 85.5" (H)
- **Weight** 1'800 kg / 3'970 lbs
- **Electricity** 400 V, 50/60 Hz, 3 phases, 3x25A transformer available (optional)
- **Pneumatics** Compressed air, 0.55 – 0.7 MPa
- **Frame formats** 200 x 200 mm to 610 x 610 mm / 8" x 8" to 24" x 24"
- **Panel thickness:** 15 – 40 mm / 0.6" – 1.6"
- **Panel width:** min. 28 mm / 1.1"
- **Performance:** up to 163 frames per hour depending on frame size and operator
